1990 MERRIMACKAN • Volume XL

WHAT IS THIS? . . .

It is "A Bold New Look into the Nineties." A vision which began on shaky grounds and blossomed into a book of unprecedented proportions. A project which was largely a great experiment. What you see, the resulting product, was achieved with hard work, perseverance, and a great amount of sacrifice. The approach of this book has been a pragmatic one. We wanted to convey a sense of momentum and vitality in a time which seems to hold promise in the world and here on campus.

This is a book for the future. It looks to the future through optimistic eyes. However, it takes people to make visions come to fruition. Proof of this theory is in your hands. Hopefully you will not only appreciate, but also cherish this curiosity for the rest of your life.

— Robert L. Simpson

A **BOLD** NEW LOOK INTO THE NINETIES

(Far L.) Bob Simpson and Mike Ehrmanntraut pose with the new computer which has revolutionized the yearbook organization. **(L.)** Bob Simpson, Marion Rafferty, Heather Fleming, Shelley Bonert and Mike Isotti take a break for pizza after having begun the 1st phase of the office's renovations. **(Below)** Mike Isotti takes a moment to express his dissatisfaction with the progress of the job at hand.

Starts With A Fresh Coat of Paint And a Technological Breakthrough

Upon walking into the yearbook office for the first time, it became apparent that the organization was in need of a facelift. So, a small band of dedicated students proceeded to give the office a look which would reflect its future in the month of April 1989. This was followed by the installation of a MacIntosh SE during the fall semester. The utilization of this computer would allow the yearbook to enter a pioneering age in yearbook publication called Desk Top Publishing. All of the Black and White pages of this book were created using the software program named Pagemaker. Next year promises even better results, as an experienced staff returns and Pagemaker 4.0 gives us the power to produce 100% of the book using computer technology.

Changes Could Be Seen All Over The Campus

(Top L.) Before the new windows. **(Top R.)** After the new windows were installed in Monican Centre which featured screens for those hot summerlike days in September. **(L. Above)** Commuters were able to enjoy a new color television in the Warriors Den. **(L. Below)** Part of the AT&T command center which has made inter campus communication a breeze as well as saving students the aggravation of phone installation every year. **(Above)** Residents in the apartments saw thousands of dollars spent on verdant landscaping.

Means Merrimack 2,000

This year, we have all noticed the construction of the new Science and Engineering building, due to be opened in the fall '91. But that is just the tip of the iceberg. The Science and Engineering building is just the first phase of a multimillion dollar project called "Merrimack 2,000" (Chairman: Richard J. Santagati, '65, of Andover). Over the next ten years, the college will undergo a sort of "giant facelift" in order to meet the demands of the upcoming century. What will happen?

In addition to the Science and Engineering building, there will be new academic facilities, renovations of Sullivan and Cushing Halls, a bigger and better equipped athletic/recreation complex (including more athletic playing fields), a campus center for student-related activities and organizations, and a free-standing theatre/auditorium. A pool, new residence hall, and new maintenance/receiving center are also in the planning.

What is more, the changes are not limited to construction of new buildings and facilities — there will also be endowments for new scholarships (for which many a student and their parents will give a cheer), academic chairs, an honors program, and the possibility of a masters degree program especially in education. As most of "Merrimack 2,000" is still in its' planning and organizational phase, it will be exciting to watch each step of the program take form over the upcoming years. The yearbook would like to congratulate and encourage the many alumni and friends of Merrimack who are all helping to make this bold plan a reality.

— Brian J. Courtemanche

Merrimack COLLEGE

(Top) This is one of the new kiosks which were purchased to help advertise college events and provide directions to guests. **(Middle)** Everyone benefits from the new lights which were placed from Austin to O'Reilly. As soon as the new building has been completed these lights will be installed throughout the entire academic area. **(Above)** The new bus replaces the notorious purple monster which was on its' last leg in its' long service to Merrimack.

A **BOLD** NEW LOOK INTO THE NINETIES

(L.) Father Deegan addresses the importance of Merrimack 2,000 and announces a new program called "Bright from the Start" which will afford Lawrence city children the opportunity to attend Merrimack upon graduation from high school.

Begins With GROUNDBREAKING

I believe there are two aspects to this Science and Engineering center — the tangible and the intangible. Certainly, the tangible aspect — including sorely needed space, state of the art laboratories, and offices designed for efficiency of operation — generates a positive image to those who work and visit this campus. The erection of this building states in bold terms that Merrimack has a commitment to the future generation of scientists and engineers who will be trained within its walls. However, I believe the intangible aspect of this building to be perhaps even more significant. Not the concrete, not the steel, not the bricks, not the equipment within — but like a breeze from the sea — it offers a new environment in which faculty, students and staff can renew their commitment to the pursuit of educational excellence. It generates a sense of pride — a pride resulting from perseverance in the molding of young lives. Over the years many of us have dedicated ourselves to this cause. I salute each one! And further, this building states to those who have labored in the past — we stand on the foundation you laid, and we of the present are willing to carry forward into the future. Most of all it speaks loudly and clearly — Merrimack is on the move!! This ceremony is an exciting event in the history of Merrimack College. May we honor the past, May we cherish the present, and above all, may we invision the future impact that this Science and Engineering Center can have on the individual, on the Merrimack valley, on our own State and yes, on our Country.

Address by Ronald M. Pike;
Professor of Chemistry

(Above L.) Dr. Ronald M. Pike is seen here giving his stirring address on the importance of the new Science and Engineering building. **(Above)** Father Deegan uses the backhoe to officially begin the construction project on October 13, 1989.

(L.) Those people who will make the Science and Engineering building a reality break ground together.
(Below) A large crowd gathers for the ceremony.

— Linda Hachey

Perspective on the Eighties

Before the Eighties slowly dwindled away Chris Krako, then Art Editor, worked arduously to complete a mural depicting various events throughout the decade. The mural was commissioned in order to bring character to the office. After what seemed like hundreds of hours of hard work, the mural was completed at the end of the fall semester. Now a permanent fixture in the office, it will remind future students of the colorful events of the 80's. Chris deserves special thanks and words of praise for such an extraordinary piece of artwork.

The 1990 Yearbook is dedicated to Father Fritz Cerullo

The famous poet, E. Burke, once wrote, "If you would have things come your way, go after them."

This quote is perfectly suited to represent the beliefs of Father Fritz Cerullo, the recipient of the 1990 yearbook dedication. Father Fritz has been a member of the Augustinian order for twenty five years, the last eight spent here at Merrimack. Since his first task upon arrival at Merrimack, greeting commencement speaker Tip O'Neil, he has striven for excellence, for both himself and his students.

Working for the Office of Institutional Advancement by raising funds for the Merrimack Scholarship Endowment, he sees dreams turn into reality. Father Fritz asserts that "there is nothing more important than helping someone achieve an education." as the saying goes, "Knowledge is power." Fr. Fritz refused to cite the one most important part of a college education. "Although strict academics aid in the process of critical thinking and decision making, equally important are the classical elements of education: intellectual, moral, emotional and physical."

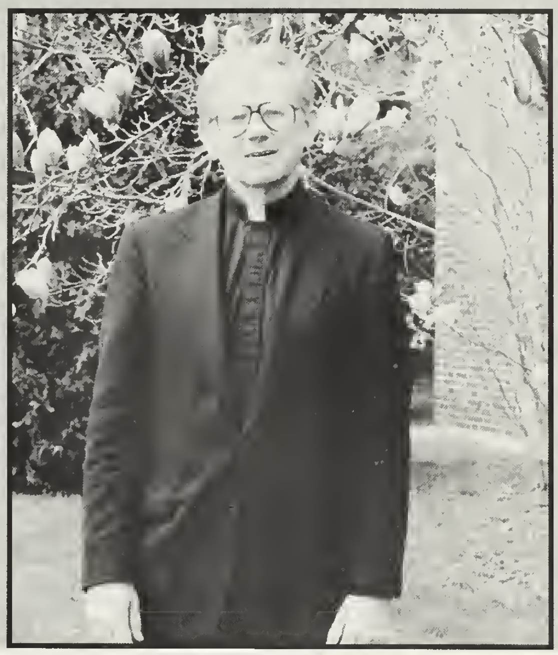
As we forge into the new decade, Fr. Fritz hopes that the quality of the curriculum will continue to improve. He spoke of the importance of renovation of the facilities, as well as the constant need to increase scholarship endowments. Overall, he hopes to see the needs of students continually responded to. At the same time, he stresses the importance of Merrimack's smaller population, a factor that contributes to the warm, special atmosphere of the school.

Fr. Fritz accepted the position as 1990 class advisor, seeing it as an opportunity to meet and spend time with the students. He would like to thank the class of 1990 for the remarkable presentation at the Baccalaureate Dinner. "It's been a very rewarding experience to know you and share your friendship. I know you will succeed and achieve in whatever you do."

Thank You Fr. Fritz for all you have done for our school. Your obvious love of students and support to their quest for knowledge is greatly appreciated.

-Heather Fleming

Senior Address



Dear Members of the Class of 1990:

It is a pleasure to have this opportunity to address you on the occasion of the publication of the 1990 Yearbook. The theme of the Yearbook: "A Bold New Look Into the 90's" is indeed apropos. Your class marks the beginning of the last decade of the 20th Century. As we reflect upon the years of Merrimack's existence, it is essential that we take from this experience lessons that will prepare us well for the new century. Your class will be the leaders of the 21st Century and I know that the education you have received here at Merrimack has prepared you well for this role.

We experienced radical and swift-moving changes in our world as we came to the end of the decade. The movement towards freedom and democracy in Eastern Europe is a sign of hope in the restoration of the concern for the individual and individual freedoms. The cause of justice which will lead to peace is one that is at the heart of a Merrimack College education. During this last decade of the century, we must renew our efforts to enhance the dignity of all persons, and facilitate the work of justice and peace not only in our own families and communities, but throughout our nation and the world.

Merrimack, in the 1990's, will continue to undergo many changes. It is our hope that we will see new buildings for instruction and for social and recreational purposes constructed on our campus. We look forward to the strengthening of the general education in the arts and sciences which all of our students will experience. We are making plans for enhancing the quality of our faculty and staff and diversifying our college population so that the rich values of many cultures will be an integral part of everyone's educational experience.

You graduates should be filled with great pride in the education that you have received, and also excited about the many opportunities that are yours as the decade of the 90's unfolds. Your alma mater will continue to be a leader in quality education based on the values and tradition of our Judaeo-Christian heritage. Merrimack College will also become a leader in addressing the problems that confront our nation. The problems of homelessness, drugs, poverty; the problems of aging and loneliness and isolation; the problems of quality for family life and constructive interpersonal relationships. In all of these areas you can be assured that Merrimack will always be faithful to her mission of providing a values-sensitive education in an atmosphere that will allow her students to grow as sensitive and caring men and women before God.

I salute you on your accomplishments and ask God to bless you in your future endeavors. I know that if you are faithful to the values instituted by your parents and fostered by this institution of higher education, you will become leaders of the 21st Century and, more importantly, responsible men and women who cherish the dignity of all before God. As did Saint Augustine, I urge you to go forth on your restless journey always seeking truth which will lead you to wisdom which is God.

Sincerely,
Rev. John E. Deegan O.S.A.
President

Senior Spotlight

Anna Andriolo

Anna Andriolo from Belmont, MA. earned a degree in Business Administration. Her greatest contribution to Merrimack has been through both Campus Ministry, working on the M.O.R.E. Retreat Program and the Orientation Committee.

After college, Anna will be working at a sales position in the hopes of managing her own retail store.

"I admire my parents the most because they have been excellent role models and given me love and support. I couldn't have gone as far as I have without them."

The obstacle which she faced was lack of time. "There is a lot to do and not enough time to do it in."

Anna's advice to students is to get involved. "Once you get involved it leads to the discovering of new things. It's our job to change what we dislike at Merrimack or anywhere. Unfortunately, the administrators do not know what we want changed because they don't hear it from us. It's our responsibility to let them hear from us."

She would like to thank her brother Michael for being there when she needed him the most during her college career.

Belinda Brady

Belinda Brady graduated Summa Cum Laude with a degree in Accounting and is from Newton, MA. Her greatest contribution to Merrimack is her work as President of the Accounting and Finance Society. The Accounting and Finance Society seeks to bring students together, educate them on their options and facilitate building networks and establishing contacts. Belinda helped to open the lines of communication between business students and the business world and worked to get students more interested in their careers. By doing this, she hopes she was able to fight some of the apathy on campus.

After graduation, Belinda will be entering the public accounting field and plans to get her CPA as soon as possible. Long range goals include becoming a partner in her firm and teaching at the college level.

Martin Luther King, Jr. is the world leader she most admires, particularly for his dedication and persistence.

Although Belinda says that being a perfectionist is an obstacle for her, she says "It is not a negative per se. It results in self imposed goals that make you reach higher. It is tough and stressful, but always worthwhile."

Belinda Brady

Brady continued...

Belinda believes students should give one hundred and ten percent, not just one hundred percent. She also says to work hard at what you do and to love what you do. She advises students to get involved and pursue and research career goals while at Merrimack. Belinda says, "Challenge yourself constantly. Set a goal of reaching your fullest potential. Never settle for less than your personal best. Above all, enjoy your four years at Merrimack. These are definitely some of the most important and memorable years of your life, and they go by all too quickly!"

"Thank You to my family and friends for your support, love and understanding over the past four years. You all are an integral part of my past, present and future accomplishments and I could not have made it without you!" Belinda would also like to thank her professors who inspired and encouraged her to work hard to achieve her goals.

Diane Coughlin

Diane Coughlin of York, Maine, graduated from Merrimack College with a degree in Finance. Diane feels her major contribution was "having underclassmen look up to you." In the future, Diane hopes to get into a good company with an excellent training program. She would also like to travel.

Although rules and regulations were often obstacles, hard work and determination were rewarded with success. Diane's success came in both scholastic and athletic areas. She earned assorted awards in Basketball and was, for "countless semesters", a Dean's List Student.

Diane warns underclassmen, "Get involved. Go to parties and events, meet people."
Diane thanks her parents for putting up with her.

Karen Discuillo

Karen Discuillo is a Psychology major from Amherst, N.H. Her biggest contribution to Merrimack was her involvement in the M.O.R.E. program in her Senior year. Karen was on team and feels that she was able to "help people get in touch with themselves."

Karen wishes to attend Graduate school in Honolulu to study Counseling Psychology.

Being shy and lacking self confidence were obstacles that Karen had to overcome. As a Freshman, she had a difficult time getting involved. Thus, her advice to fellow students is to get involved from day one. You meet people and get a lot out of the Faculty and staff that way.

Karen would like to say Thank You to her parents, roommates and the Psychology Department.

Lisa Fournier

Lisa Fournier is a hard working Marketing major and Economics minor who hails from Danvers, Ma. Facing the obstacle of the skyrocketing cost of education, Lisa entered the Co-op program. She feels that her participation in this program was a definite contribution to the school. In a manner of speaking, she was "like an ambassador." Her work habits helped to represent Merrimack students to the business world.

Lisa hopes to become a manager in the Marketing Division of IBM.

She admires her mother a great deal. Although she never went to college, she served as an excellent role model. Her mother offered constant encouragement, only wanting Lisa to do her best.

Lisa would like to thank Betsy Chisholm, her coordinator from the Co-op office. Not only did she help Lisa get a job, she also helped her with her problems.

John Iannuccillo

John Iannucillo from Lawrence, Massachusetts earned a double degree in Finance and Accounting. He was the co-founder of the Merrimack Entrepreneurial Network and he helped to bring more students to Alumni Resource Night. This night was held with the Alumni Office so that seniors can set up contacts and possible jobs with alumni.

After college, John will be working with Arthur Anderson in the Small Business Division.

The leader he most admires is Ray Crock, the founder of McDonald's, because he founded the company at age fifty-five. "I hope to possess that kind of perseverance in my own life," said John.

One obstacle he faced at Merrimack was the school's bureaucracy. This made it hard to get what you want done effectively and to be able to communicate your vision for the sake of your club. "It's difficult to accomplish your goals when people don't understand you."

John's advice to students is to take part in everything and take it seriously whether it's for fun or for academics. Plan your careers three years in advance, don't wait to your last year to decide what you want

to do with your life. Make friends with the faculty and establish as many contacts as you can before you graduate. Do something good for Merrimack in order to reinvest what you took from the college."

John would like to personally thank Professor Stasio for all of his help forming the Merrimack Entrepreneurial Network, Father Morgan for his guidance with the Alumni Resource night, Rae Terranova and Bill Regan for placing him off campus and finally, all the faculty in the Business Department for all their support.

John believes it would be a good idea to establish a breakfast club. Here graduates would be able to get together and meet once every two months to discuss their lives and to try and help one another out as alumni and as friends. "Even though we've graduated we shouldn't lose contact with one another."

Michael Iannuccillo

Michael Iannucillo from Lawrence, Massachusetts earned a double degree in Finance and Accounting. He was the co-founder of the Merrimack Entrepreneurial Network, which is dedicated to helping students learn about entrepreneurs and how they succeeded in starting companies. It benefits students by giving them a valuable reference, in today's tough business world.

After graduation, Michael will be working at Coopers and Lybrand in the Auditing Division.

His biggest obstacle at Merrimack was trying to juggle school, work and the Entrepreneurial Network. Trying to do everything well and not being too spread out was sometimes very difficult.

A world leader most admired by Michael is Nelson Mandela.

Michael's advice to students is to concentrate on their grades. This way, when they graduate and begin the process of seeking a job, they will have a good GPA to get them through the door. They can improve their public speaking ability by working with as many clubs on campus as possible. If they can't find a club that interests them, then they should start one.

Senior Spotlight

Lisa Joaquin

Lisa Joaquin, a Psychology major with a minor in Education, will be greatly missed at Merrimack. This Scarborough, Maine resident contributed her talents in the entertainment world on campus. Whether it be her acting, or singing with the Chorale, she learned a lot from her performances.

Like many students, Lisa was plagued with the problem of lack of time. Between the retreats, the Onstagers and her books, time was limited. However, she did enjoy the challenge.

One leader that has captured her admiration is Soviet President Gorbachev. She feels that he "has done a lot."

Lisa hopes to utilize her degree to obtain a high school teaching position. Her pearl of wisdom to underclassmen is a simple one. "Get more involved! You get out what you put in."

Lisa thanks her parents for making it all possible.

Pamela Quinlan

A Sociology major with a minor in French, Pamela Quinlan hails from Billerica, MA. She has contributed to Merrimack through her involvement in the Aids Education Program. As a Resident Assistant, she sought to help students with their problems.

Pamela would like to work in an Aids Hospice. She also plans to obtain her Masters in Sociology.

She most admires Martin Luther King, Jr. Her grandparents, who overcame many obstacles when they came to the United States, are also recipients of her admiration.

Pamela says that getting involved in programs will benefit you in the end. She also says that you should take things one step at a time.

She would like to thank her parents and teachers.

Senior Spotlight

Bob Tosi

Bob Tosi is an Accounting major from Arlington, Ma. His contributions to Merrimack included his involvement in many organizations on campus. He served as Vice President of his Fraternity and played Intramural Basketball and Flag Football. Bob was actively involved in Campus Ministry, where he was on the Baccalaureate Mass Committee, the M.O.R.E. retreat program as a team leader, the Research Committee for a new Campus Minister and served as a Eucharistic Minister. He is also on the Strategic Advisory Committee that will meet over the summer and is a Town Meeting member in Arlington where last year he was elected Chairman of his precinct.

Bob wants to tie his interest in politics together with his Accounting background to work in a Government Agency. He wants to help the elderly, perhaps as a lobbyist.

The person most admired by Bob is the man who stood in front of the tank in Tienanmen Square in China last summer. His bravery had an enormous impact on Chinese citizens and the world.

An obstacle Bob had to overcome was his shyness. His leadership positions helped him to do just

PJ Venturelli

PJ Venturelli is an Accounting major from Arlington, MA. Her contributions to Merrimack include both the time and effort that she has put into both the Student Government Association and Class Council. Her work in these organizations has enabled her to make Merrimack better for students.

PJ is going to work for Bull HN Information Systems. In the future, she plans to develop her career further by obtaining her Masters degree.

She feels that the Administration was sometimes difficult to deal with and was an obstacle in her path to leadership.

Her advice to students is to get involved. By getting involved, you can make a difference.

PJ would like to thank the people here at Merrimack. The friends she has made are very important to her. Looking back, PJ says that she wouldn't change anything.

W

W

Senior Spotlight

Melissa Walker

Melissa Walker is a Marketing major from Reading, MA. She will be attending Babson College in the fall to continue her studies.

An obstacle she had to face was paying for school. Melissa had to transfer to ULowell for a semester because she could no longer afford Merrimack's tuition. When she was hired permanently by IBM, she was able to return to Merrimack because they paid for her tuition. After spending a semester at the rather expansive ULowell, she came to appreciate the small size of Merrimack.

Melissa would like to thank Dr. Corbett for encouraging her when applying to Graduate school and Fr. John Gavigan for making her see good in people - she wishes she could be more like him.

Her advice to fellow students is to make the most out of your college experience. She didn't really appreciate Merrimack until she had to leave.

Kelly Walters

A Sociology major, Kelly Walters is from Fitchburg, Ma. She feels that her greatest contributions to Merrimack have been her involvement with the Student Government Association, Orientation Committee and her position as Photography Editor of the Merrimackon. Kelly plans to pursue a career in College Admissions.

An obstacle on Kelly's path to leadership was time management.

Kelly advises fellow Merrimack students, "By choosing your clubs wisely, rather than choosing many clubs and not giving one hundred percent, choose a few clubs and give quality time. That way you get more rewarded."

Kelly would like to thank her parents and her sister Karen for all the love and support they have given her.

Senior Spotlight

Greg Waters

Greg Waters from Unionville, CT. earned a degree in English with a concentration in Education. Merrimack enjoyed a substantial contribution from Greg through his talents on the basketball court. Greg took an additional step and reached out to the entire Merrimack Valley community by offering time in community service.

After college he plans to become a high school teacher and basketball coach. He would like eventually to become a College Professor.

A world leader most admired by Greg is Nelson Mandela. "He has endured a great amount of oppression. Even though he has been in prison for over twenty years his reputation and goals were still carried out by people who believed in him. I feel he will help South Africa and the world."

One obstacle he faced was the decision whether or not to go into Education, a profession with little monetary reward and often a lack of prestige. "I had a hard time learning how to give myself to others. Once I passed that, teaching became one of the most rewarding paths to get into."

Greg's advice to students is to take advantage of everything Merrimack has to offer. There's a lot out there but it is up to the students to take advantage of it. "I look back on my four years of college and even though I was busy, I wish I could have done so much more."

I would like to thank Coach Bert Hammel, Coach Greg Horrenda, and Tom Herrion for having faith in me. Thank you Father Deegan for making my four years enjoyable. Thank you Dr. Lee for being there when times got rough. Lastly, a special thanks goes to my teammates for being such great friends.

Greg learned the art of discipline from his basketball experience. This enabled him to manage his time better. Along with the rest of the team, he spent many hours striving to be the best.

He expresses concern over what he believes is the overshadowing of the team by the Hockey team, even though they are just as talented. He points out that they won their first ECAC Championship last year. In addition, he points to the many Community service projects the Basketball team participates in, such as the Lawrence Boys Club and the program Read with the Warriors, a program aimed at motivating elementary school children to stay in school.

"Along with winning the ECAC championship, all the community service was just as memorable because we have touched so many people both on and off the court. That is something that will last a lifetime."

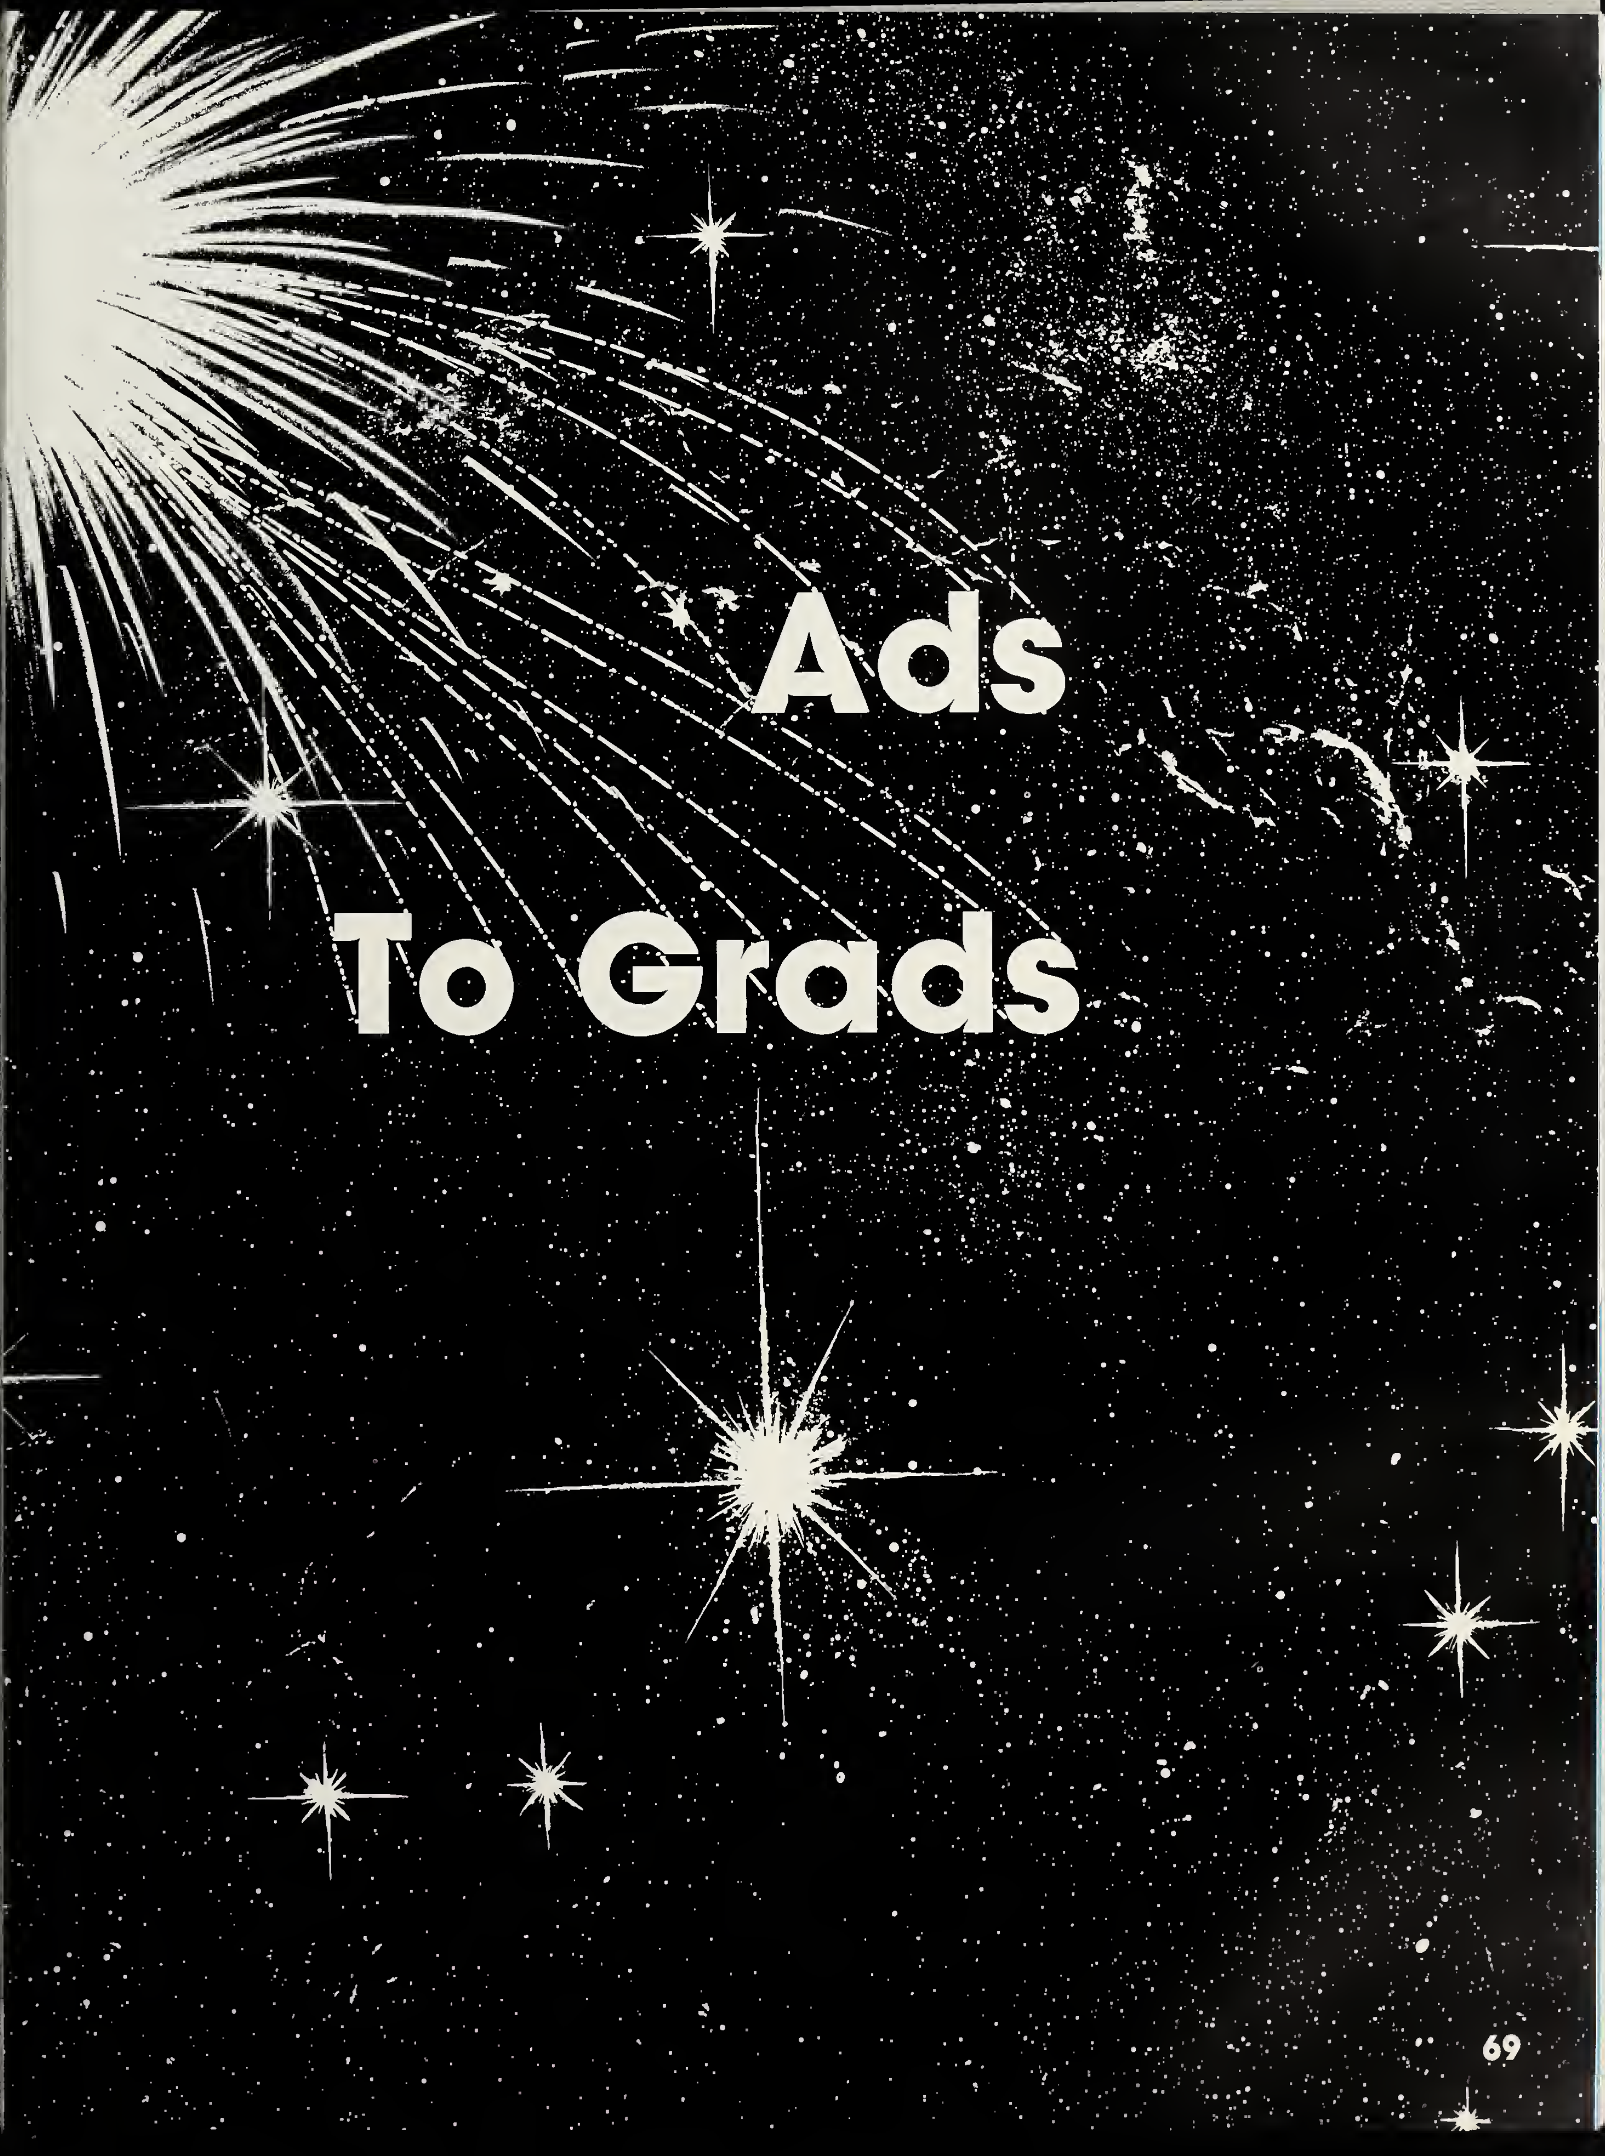
A Special Message From Our President and the First Lady

To The Merrimack College Class of 1990
With best wishes,

Barbara Bush George Bush

Ads To Grads



Dear Dean,
The baby of our family has reached a major step to manhood. We are proud of you and your accomplishments. May your life be blessed with love, good health and success. You have given us the pleasure of being Dean.

Love,
Dad, Mom, Rob,
David, Chrisanne

Dearest Jennifer
Your family is very proud of you for your wonderful achievement. One person, though not here with us to see you graduate is watching with such joy in his heart for his "Jennie".

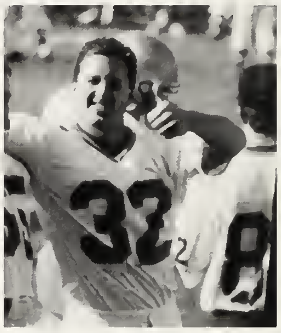
All our love,
Mom, Dad & Greg

Dear Donna -
Congratulations! We are so proud of you! Your hard work has prepared you for a successful career. You have so many great memories and good friends to cherish. Be happy. We love you.

Mom, Dad,
Michelle
Gram & Grussle

Paul, Congratulations! We're proud of you son. We've loved being part of all your academic and athletic accomplishments. Thanks for all your love and warmth. The future is yours!

Love,
Mum and Dad
(Dave, Gregg,
and Chris too)



Joanna,
Congratulations!
We know how hard you worked to get your degree--we're proud of you & wish you the "best".

We love you -
Mom & Dad

Congratulations Christopher-
To express our feelings of how proud we are we need only to say, "You're Our Shining Star".

With love,
Mom, Dad &
Sheila

Dear Karen,
Words cannot say how proud we are of you as you graduate. You are a sensitive, loving, hard working girl, and we know that these qualities will enable you to succeed in the future.

Love,
Mom, Dad, John
& Mike

Carla,
You are truly a wonderful daughter. We love you and we're so proud of you. Our wish for you is good health, luck and happiness for you deserve it.

Love,
Mom, Dad,
Anthony & Lisa

Congratulations!
B.T. AKA Broomhilda
We wish to tell you how
proud you have made us
and how much we love you.

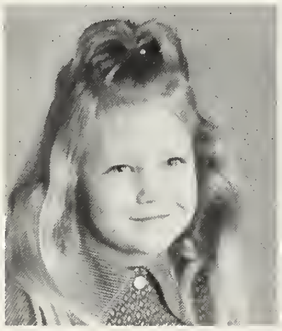
Your P.U.
P.S. A message from Bill
the Cat - "AAKKK"

To Peter Landry:
You are the good kind.
With bushels of pride in
you.

Love, love, love,
Mummy, Laura
Elizabeth, and
Katherine

Anne -
Congratulations!
"If you have faith as big as
a mostoid seed, you could
say to this mulberry tree,
'Pull yourself up by the roots
and plant yourself in the sea'
and it would obey you."
(Luke 17,6)
We love you!
Mom and Dad

Congotulations Diane!
We love you and hope you'll
always be happy. Your positive attitude and ready smile
will take you a long way. We
will always be here for you.
Love,
Mom and Dad



Congratulations Minnie!

We are all proud of you
and all of your achievements.

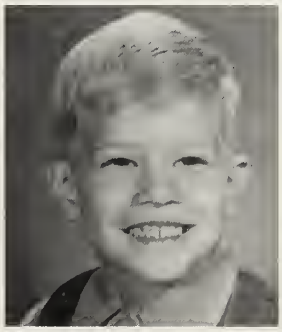
Mom & Dad
Bernie, Mike,
Mark and Sean

You've come a long way
Rat!

Congratulations!

Love,
Mom, Dad, Katie,
Matt & Mike

Dear Rick,
You have always brought
much joy to our family.
We are proud of you and
what you have achieved.
May your future be as bright
as your smile.
Love,
Mom & Dad



Kelly,
From this precious little girl,
you have grown into a lovely
young woman. We are very
proud of your accomplishments. You will always have
our love and support.
Mom, Dad,
Siobhan, Mathew,
Joe & Anne

HAPPY NEW YEAR

Congratulations and the
Best of Luck - Jimmy.
We're certain that your
accomplishments have only
just begun. We're all very
proud of you!!

Love always,
Mom, Dad, Tommy,
Larry, & Matthew

Congratulations Darling!
Words alone cannot describe
how very proud we are -
today and always. May all
you've learned take you
through life with ease and
help you attain all your future
endeavors.
Love,
Mom & Dad

Congratulations, Tracy!

You have completed
another milestone in
your life.

We're proud of you!
God Bless You and God
Speed!
Love Mom & Dad

Mikey made it!

Congratulations!!

Love,
Mom, Dad,
Karen, Joe,
Annie and
Lauren

Kathy,
We watched you grow,
creative, competent and
energetic, before long you
were the tall strong, striking
girl we knew and loved. Now
you will continue to grow
positively, have continued
sucess in all your future
endeavors.
Love Mom and Dad

Freddie,
You have achieved so much
and we are so proud of all
your accomplishments.
You always were and always
will be a special person to
each of us.
We love you.
Your Family

Congratulations!!

To the one who has brought
HAPPINESS into my life.
For all those times we've
shared together - I LOVE
YOU! May our futures bring
us lots of joy. (together).
Congrat's once again!
Love,
Michelle

Kristen,
We wish you all the best of
health, happiness and luck
with your life that the future
has to offer.
We are very, very proud of
you, especially Papa.
Love,
DAD, Mom and
Tommy

Kathy,
You are a wonderful daughter and you have made me very happy. I will always be proud of you, and I know Dad is too.

Love,
Ma

Congratulations Mike!

We are proud of your achievements.

Love,
Dad, Mom,
and Marc

Dear Lisa,
May all your troubles be little, all your problems be simple. May God always guide your paths and bless you. We love you and we always will. We are so proud of you.
Love,
Mom & Dad

Christine Martin, from the first day of kindergarten to the last day of College, we are proud of you! All our love and best of wishes on your future endeavors.

Love,
Mom, Dad &
Family

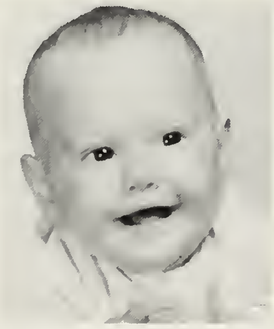
Dear Nareen,
Congratulations on all your acheivements and may your future bring you success and happiness. You have made me very proud of you.
Love,
Mo

Gordie,
It was once said by Thoreou, "We are constantly invited to be who we are." You have the potential to do just that. Best of luck. We are so proud of you, and we love you.

Gordie -
The achievements that you have accomplished at Merrimack College have been outstanding. Your perseverance and many sacrifices have earned you an excellent education. I'm very proud of you. Best of luck in all future endeavors.
Love Dad

You've come a long way, baby! - and we know you'll go far. We are very proud of you. Best of luck in all your future endeavors. We love you!

Your Family



Claire,
"CONGRATULATIONS"
We are extremely proud of you on a job well done. "Celebration time" God Bless. All our Love,
Dad & Mom,
Bill, Suzanne
& Ryan

To our "Rhina" Girl,
We are very proud of you because of your diligence, intelligence and strength. Your sense of humor has helped get us through. We love you!
Jen and Mom
PSA, unite!

To Brian Sindoni:
Congratulations on your achievements during your four years at Merrimock College. We are proud that you are our son and wish you a bright and prosperous future.
Love,
Mom & Dad

Mich,
You sure have come a long way just by being yourself. You did it, achieving your goal at Merrimack College. Don't ever change. You're the best.

Love you a lot,
Mom, Norm,
Dean, Missy,
Moureen & Francis

Kristin
We are all very proud of you for the many things you have achieved. Also we are very proud of the wonderful, caring adult you have become. Wishing you love, peace & happiness.

Love,
Mom, Dad, George
Jim, Shaun

Congratulations Bob,
Your determination to succeed in life and be the best person possible has made us all very proud of our Mr. Merrimack. To know you is to love you.

Love your Family

This kid decided one day that dirt and grease would give him a fit. He bested those friends who shunted this man by graduating this day a far better man.
CONGRATULATIONS
GERRY VINCENT

P.J.
Your determination from start to finish has paid off!
So very proud of you!

Love,
Mom, Peter
& Mike

We have always wanted the best for you - You have just accomplished your best.
We have always been proud of you - you have just made us prouder. May you always have happiness & success.

Love,
MOM and Dad

Marilyn ---
Today brings happy thoughts and memories of you.
So many things that make you a wonderful person. What a joy it is to have you for a daughter.
CONGRATULATIONS and SUCCESS.

Love
Mom and Dad

Dear Lisa,
You have overcome so many obstacles to reach this goal. Congratulations! We are so proud of you.

All Our Love,
Mom, Dad,
Terri and all
your family and
friends from T-town

CONGRATULATIONS
MARYANN--IT HAS BEEN
A LOT OF HARD WORK AND
SACRIFICES FOR 4 YEARS.
WE ARE VERY PROUD OF
YOU AND WE KNOW THAT
DAD WOULD HAVE BEEN
VERY PROUD TOO.
LOVE
MOM & NANCY

Allison,
Congratulations! We are so proud of all your accomplishments at Merrimack both athletically and academically. But watching you mature as a person has been especially rewarding. Always follow your dreams and never change your attitude and drive.
We love you!
Love Mom and Dad

Paul,
We have watched you grow and mature into a caring responsible adult.
We want to congratulate you on your achievements and tell you how very proud we are of you. May your future be even more successful and fulfilling than your past.
Love
Mom & Dad

Congratulations to you Heidi on your successful 4 years at Merrimack. We love you very much and we foresee this step blossoming into a fruitful life for you.

With Love & happiness
Mom, Dad & Bruce

You finally made it, words cannot explain how proud we are of you. You have a wonderful life ahead and you know we are always here to support you. We love you.

Mom, Dad and Sandy

Liz,
You've come a long way since Barbie dolls and bubblegum. You've worked hard to reach your goal and we're so proud of you.
Thank you for being such an important part of our lives.
Love,
Mom and Dad

Congratulations Diane,
You did it! We are so very proud to have you as our daughter. We know you will be successful in whatever you choose to do. You always seem to make that "right" decision. The future is yours.
Love,

Joey, You have reached an important milestone. As proud parents we wish you continued success and happiness much like you have always given us. Walk proud into the 90's and your future.

We love you- Mom, Dad
and Roberta

Congratulations Sue,
You made it! Your hard work and effort paid off.
Always remember fondly these college years especially the happy moments and special friendships. We're proud of you. Continued success in the 'real' world.
Love,
Mom, Dad, Karen & Jeannine

Karen,

Congratulations on a successful four years and much happiness in the future.

Love,
Mom and Dad

Lisa,
Congratulations. We're proud of your accomplishments. It was hard, but we knew you could do it! Good Luck in the beginning of a new and exciting life.
"Laura, just wait until next year. It'll get harder."

Love,
Mom, Dad, Laura

CONGRATULATIONS BUFFY! - We are very proud of you. You have accomplished a task worthy of praise. Wishing you happiness and success in your future.

Love,
Dad & Mom

My Dear Lorraine,
I am very proud to be your Mother.
I love you.

Dear Suzy,
Congratulations and Best Wishes! We are so very proud of you and all that you have accomplished. We wish you successs and happiness and remember we will always be here for you.
With love always,
Mum, Dad, Jennifer, Tom, Natalie,
Stephanie & Chibi

J - Is for the jobs that helped you receive your education.
O - Is for your obsessions and determinations.
H - Is for the hard work and qualifications.
N - Is for your neatness and perfections.
Congratulations Graduate!
Love Mom

Congratulations Lisa Venezia!
We are so very proud of you. Your determination for four years has gotten you where you are today - a graduate of Merrimack College Class of 1990! We hope all your dreams for the future come true.

Love & Good Luck,
Mom & Dad

Congratulations Kim -
Merrimack College 1990 - We are proud of you! You bring us love and laughter. Just remember in the winter far beneath the snow, lies the seed that with the sun's love in the spring becomes the rose.

Love,
Lynne, Mom, and Noodles

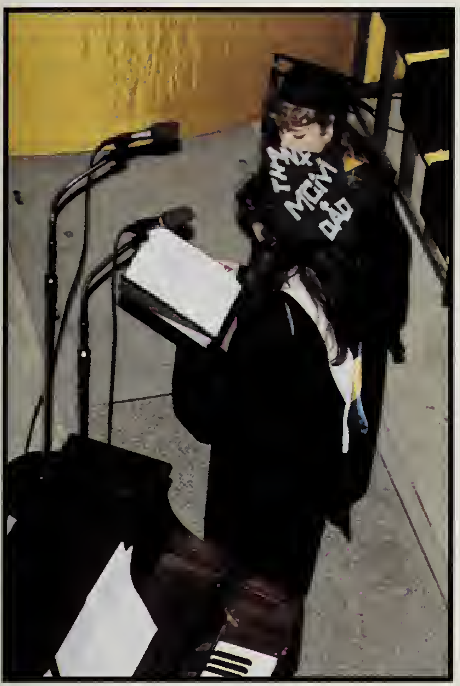
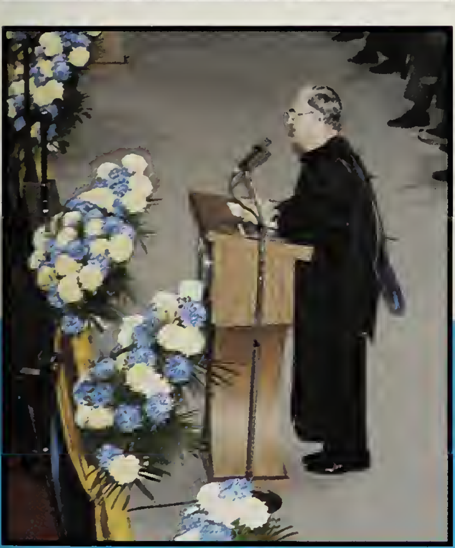
The Day Has Arrived For Graduation





. . . It seems like only yesterday that they packed themselves into cars and arrived on the Merrimack College campus. For the next four or five years of their lives, the "little school on Turnpike Street" would be home. It was their first stop on the road toward success. Battles would be fought, problems would be encountered, but at the end it would be worthwhile . . . on that memorable day when diplomas are distributed . . .

On May 20, the Volpe Complex was invaded by the graduating class of 1990, faculty members, family and friends. Guest speaker, Reverend Joseph A. Duffey, O.S.A. gave a dynamic speech using various bases of history to prove the obvious.

His speech began by explaining why 1990 would go down in history, "Your Senior Year in college will long be remembered as the year when the indomitable human spirit rose in triumph in Eastern Europe. " He continued by discussing the various struggles for freedom in countries including Poland, Romania and Lithuania. From this standpoint, he moved toward the theme of his speech, a sense of self. Mentioning the resounding message of the acclaimed film, "My Left Foot" helped to convey his point. "Believe in yourself. Believe in your own potential — regardless of the odds against you."

From his words of encouragement, he moved towards words of warning. "Most of you will soon launch careers in a society where celebrated cases of dishonesty, greed and exploitation have cast a far reaching shadow." He urged graduates to remember that "ambition, even great success without personal integrity is degrading, demeaning and dehumanizing."

His closing remarks succeeded in summarizing the point of his speech. By knowing what "in our lives is negotiable and what is not negotiable," we are developing our own sense of morals. Reverend Duffey urged graduates to stay true to themselves. In their quest for success, he hopes all senses of human decency are not lost.

Eric Labbe's valedictory address was equally as moving, but for different reasons. From early on in his speech, it was evident that he was taking a more personal approach, bringing his audience to the podium with him. He expressed his uncertainty regarding the creation of a commencement speech. He asked many people for guidance, wanting the "rules of the game" and hoping to "get all of the right pieces." He was told to "address the new found freedom in Eastern Europe, the future of this country, what he thought was the most important aspect of his college career and what the class of 1990 would bring to the world." He was told to be "forceful, emotional, concise, insightful and inspiring, and most of all, more important than subject matter," he was told to have a "catch phrase."

Although Eric's speech continued to voice many words of encouragement and express fears in regards to the state of the economy, specifically the tax situation, his best creative efforts were evident early on. In a subtle fashion, Eric succeeded in proving the point that students must retain their individuality. In a world of conformists, we must break free and become open to change. With an almost cynical style, he succeeds in making intelligent insights into society.

Like a graduation should be, it was an extremely memorable event. The alma mater song was sung beautifully by Seniors Lisa Joaquin and Sue Rudd. The ceremony was officially closed with President John Deegan's charge to the graduates and a closing prayer from the class advisor, Reverend Francis Cerullo.

Best of Luck in all of your endeavors Graduates!

— Heather Fleming

Orientation

Freshman Orientation

You are traveling into a new dimension, a dimension without time or space, a dimension void of reality...

It's summer, 1989, the beginning of the Merrimack College school year. It's time for orientation, it's the time of the freshman. Timid and scared they arrived to enter into the unexpected grandeur of Merrimack College. The latest inductees to the Merrimack College family evoked interesting and diverse reactions to their unfamiliar new living quarters. For example, "I'm living in this closet sized prison with HOW many other people?" Another comment implied early signs of homesickness, "Maybe Dad was right, Mom isn't such a bad cook after all..." A more comical reaction, displaying the often onesided mentality of the incoming freshmen would be the comment regarding community showers. "Are you KIDDING? All of these people are really waiting ahead of me just for a SHOWER?" Isn't orientation an eyeopener?

It is during this weekend that some lifetime bonds begin to form. Many activities to aid in this task occur. For more than a decade, Russ Burgess has been entertaining incoming freshmen with amazing acts of ESP and hypnosis. Few students that attend forget the hysterical sight of hypnotized subjects racing towards the stage warning students of the threatening snowstorm in August. Another highlight of the weekend is the luau. What could possibly be a better place to meet students than this panoramic setting? Casino night was also one of the weekend's features. Adrenelin was high as the competitiveness of human nature was roomwide. Not to be forgotten were both Sports Day and Carnival Day. The orientation was full of events to ease freshmen into the collegiate atmosphere. We wish them luck in all they encounter!

Camp Lincoln

The class of 1993's first experience in the Merrimack community began at Camp Lincoln. This gave Freshmen the opportunity to meet fellow classmates and speak to Orientation Committee members in an informal and relaxing setting. Simon Sez is seen here getting new students in shape for college life.

Move In

Saturday, August 26th 1989 marks the first day of college life for approximately 600 hundred students. Those students who will reside on campus are met by Orientation Committee members who help move in the necessities of life. Commuter students are also invited to spend the next three days on campus.

Welcome MASS

New Students and their Parents meet in the afternoon at the Plaza to celebrate another aspect of Merrimack: The Augustinian tradition.

SPORTS DAY

Monday was filled with more fun and games as new students were treated to a barbecue by the Orientation Committee. Volleyball, football, softball and the world famous crab scoccer were among the sports that students competed in. As evening rolled around, it was time for the hilarious antics of the Russ Burgess show which always makes everyone laugh.

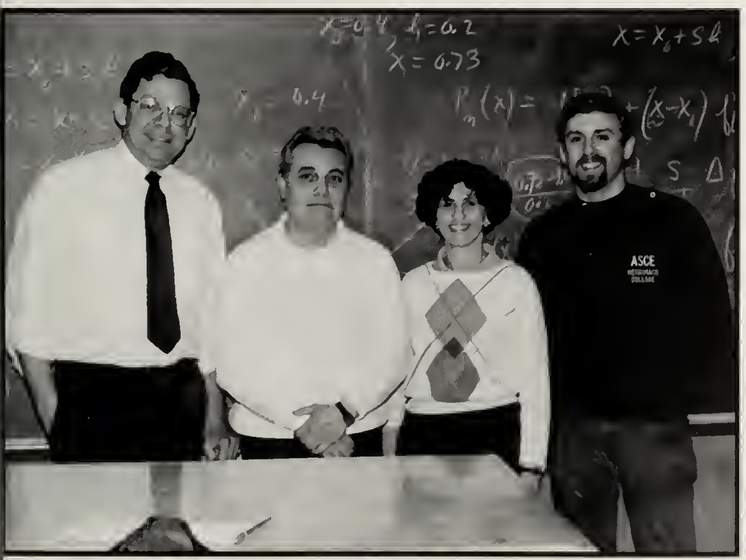
Faculty Staff & Administration

Accounting & Finance

The Accounting & Finance Department: Prof. Elliott Puretz, Chair, Prof. John Slipkowsky, Prof. Philip Lee, Richard Del Gaudio, Donald Hanson, Philip Moody, Donald Nelson, John Purisky, Frances Quinn, Julio Tiernon, Nancy Austin.

Chemistry

The Chemistry Department: Rita Frogolo, Dr. Carolyn Wermon, Dr. J. Dovis, Dr. Ronald Pike, Catherine Festo. Missing: Dr. Stephen Leone, Dr. Dionne Rigos, Dr. Mona Singh, Dr. Zvi Szofron, Chair.

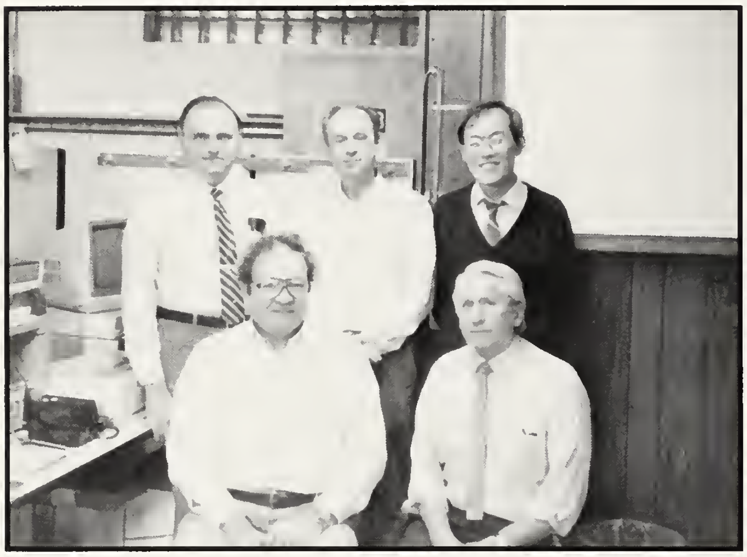


Civil Engineering

The Civil Engineering Department: Prof David Westerling, Chair, Prof. Anthony DeLuzio, Pat Enright, John Philbrook. Missing: Dr. Kim Hozarvortion, Dr. Vincent Turono.

Education

The Education Department: Prof. William Russell, Chair, Maria Nicalaisen, Prof. Walter Sacha, Dr. Brenda Brawn. Missing: Rev. Thamas Bagardus, OSA.



Electrical Engineering

The Electrical and Computer Engineering Department: Dr. Daniel Farmer, Chair, Prof. William Kennedy, Dr. Tak-Gaa Tsuei, Prof. Jahn Sifferlen, Prof. William King. Missing: Paul Hogan, Cathy Giangrande.

English

Traditional. Habitual. Fixed. Classical. Conventional. These are the words that the English Department is steering away from as they head into the nineties. According to Dr. Caine, who is head of the English Department, old teaching methods do not work any more. Therefore, we cannot expect to see the same kinds of abilities in the new generation of students.

Steps are being taken to help students move into their bold new look. The English Department has set up a writing center. Dr. Caine states , "The Writing Center promotes a new philosophy of education." She added further that the writer must take control of his or her own writing. The writing center works with all levels of the writing process to try and help the writer do just that. Tutors, who

Management

David, Breyer, Philip Hurdle, Michael Kandra, David Kapelner, Salah Khelfaaui, John Koziell, Ramesh Pant, Susan Pariseau, Annie Pucilaski, Kathy Stevens, James Stewart, Kevin Wall, Fred Willett, Carale Cronin, Marlene Oullette.

History

The History Department: Dr. Clarisse Pairier, Dr. Phillip Naylar, Sally Bradley, Dr. David Knepper, Dr. Peter Fard.

Jesus Christ. Julius Caesar. Marco Polo. George Washington. J.D. Rockefellar. J.F. Kennedy. Jesse Jackson.

The History Department is set to add more names into this list as they plunge into the new decade. In recent days, the department is fortunate to be enjoying far more majors in this area than in the past. The department offers a seminar study in which the students are issued one universal theme, and must select a subtopic to research. After completing an in depth study on this topic, they must develop an extensive research paper. Dr. Ford is proud to say that the program is enjoying healthy numbers, as it contains 23 participants so early in its development. Dr. Ford fears that there has been a large change in the education of students today. Students tend to be less read, which "denies them the oppurtunity "of learning history. Looking ahead, he would like to be able to offer more courses with a larger staff to help prepare for the new generation. -K. Smith

The English Department: Kathleen Coin, Mike Rossi, Albert DeCiccia, Robert Keohon, MaryKay Mahaney, Kathryn Dougloss, Luanne Kirwin, Catherine Murphy. Kevin Plunkett, Jaan Rassi, Brenda Hajec, Geraldine Branca, Martha Heinz.

include students and faculty, help writers get on track with their writing by listening, giving support, and ideas.

The Writing Center encourages writers, "not to write in isolation," and, "to take ownership of your own writing", states Dr. Caine. The Writing Center also would like students to adapt what they learn at the center in all of their classes.

- Kristen Smith

Fine Arts

The Fine Arts Department: Praf. David Raymand, Dr. Ellen Longsworth, Prof. Albert Brenner, Dr. David Sears, Cheryl Lanzani.

Math

Perhaps, out of all the departments, the math department is preparing for the nineties the most. A new Science and Engineering Building is on its way that will include not only more space, but better, and updated equipment. This new building, which held its groundbreaking in October, will allow students greater access to a variety of equipment.

Dr. Bradley, head of the math department, hopes the updated equipment will be better able to capture the television generation. He sees a real difference in the education of the new generation. "Students are more prepared in computers, but in math skills the opposite is true," states Dr. Bradley. The cause, again, is the generation that is fascinated by visual learning, but when rote learning is involved, students are just not interested. The department, therefore, is including equipment that will demonstrate learning concepts that will hold student's interests.

The math department has also developed a math center to help students who have problems with their homework or answer any questions the student might have. Tutors, who include students and teachers, try to relay a message to the student that it is important to learn math, and the facility cares whether they do or not. This, perhaps, is the key to a bold, fresh, and great new look as we head into the nineties. -K Smith

The Math/ Computer Science Department: Michael Bradley, A. Gaylan Cook, Pat Ducharme, Jeffrey Ibbatsan, Danald Kearns, Chang Rae Kim, Walter Maxey, Ennis Mantella, Mary Noonan, Joseph Pavelcak, John Rayal, Michael St. Vincent, Shwu-Huey Yen, Paula Cardane.

Political Science

The political science department at Merrimack looks brightly to the future and what the 90's may hold for them. Under the guidance of chairman Dr. Curtis Martin they feel the department is ready to step into the next decade.

Dr. Martin would like to see the continued support of the strong faculty of the department coupled with strong programs that would be more able to cater to student needs. Among these needs would be the involvement in internships and practicums.

In the 90's, Dr. Martin would like to see a continually growing staff for his department. Hopefully, an increase in staff members would create a lighter workload for professors. This would yield more time for staff members to have more individual contact with students.

Dr. Martin has no doubts that the political science department, as well as the entire Merrimack College community, will embrace the coming decade with open arms.
- Paula Picarilla

The Political Science Department: Curtis Martin, Harry Wessel, Marguerite Kane, Bruce Stronach. Missing: Eugene Declercq, Diana Reynolds.

Religious Studies

Our number one objective not just for the next academic year, or for the next decade, but for all subsequent years is to provide excellence in teaching. The study of religion at Merrimack College is designed to provide an intellectual grasp of certain fundamental beliefs and values of the Judeo-Christian heritage and to promote an understanding of religion as an influential force in world history. It is crucial that our graduates have an appreciation of these components.

We are excited about the possibility of offering interdisciplinary courses. Our first venture into this area will begin in academic year 1990-1991 with a course which will be team taught by a member of the religious studies department and a member of the fine arts department.

Lack of enough classrooms always causes scheduling problems. An otherwise excellent course might have to be canceled because it had to be offered in the late afternoon in time slots which are not popular because so many of our students have to work in order to earn their tuition. Finances, too, are always a problem- as they are on every college campus- especially if a department needs to replace a professor who has been released to team teach.

Three years ago our de-

Psychology

The Psychology Department: Patricia Bawman-Skeffington, Dr. Nichalas Buehler, Dr. Caral Ann Dalta, Dr. Willliam Gutawski, Dr. Michael Kanner-Mascala, Dr. Dennis McLaughlin, Dr. Caral Reichenthal, Dr. David Walsh.

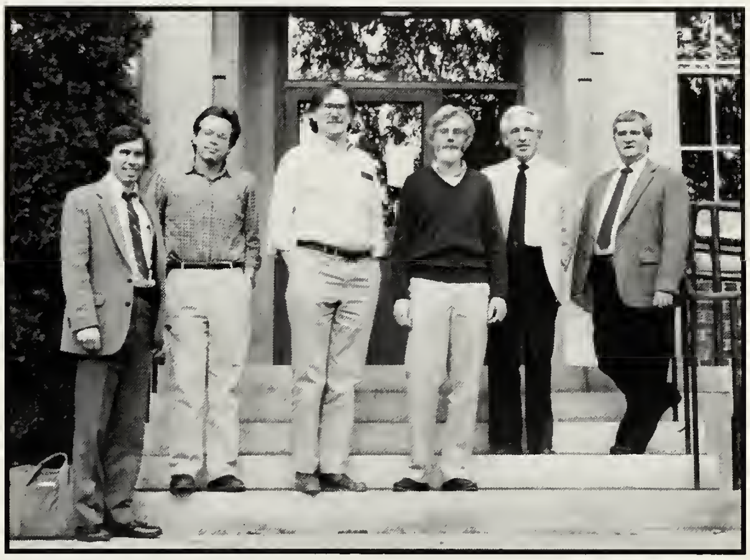
Sociology

Dr. John Dalphin looks at the increase in Sociology majors with great enthusiasm, for it reflects a change in students interests. Students are more interested in social issues such as apartheid, the environment, and homelessness. Dr. Dalphin believes that students are slowly abandoning the greed of the Reagan era to focus upon the various problems in society.

Dr. Dalphin feels the Department has improved greatly in recent years. Not only has the curriculum improved, but the department is enjoying the innovative perks, such as VCR's and computers. He is very pleased with his faculty, boasting of their qualifications, four out of six having PH.D's, the devotion to teaching, and various participants of scholarly research.

Dr. Dalphin encourages students to consider this major. It offers a wide range of possibilities. Finally, it provides helpful background in areas such as marketing and management.

- Dawn Sinsigalli



The Sociology Department: Dr. Raymand Darney, Dr. David Levinsan, Dr. Jahn Dalphin, Dr. Ranald McCarthy, Praf. Paul Shea, Praf. Frederick Petersan.

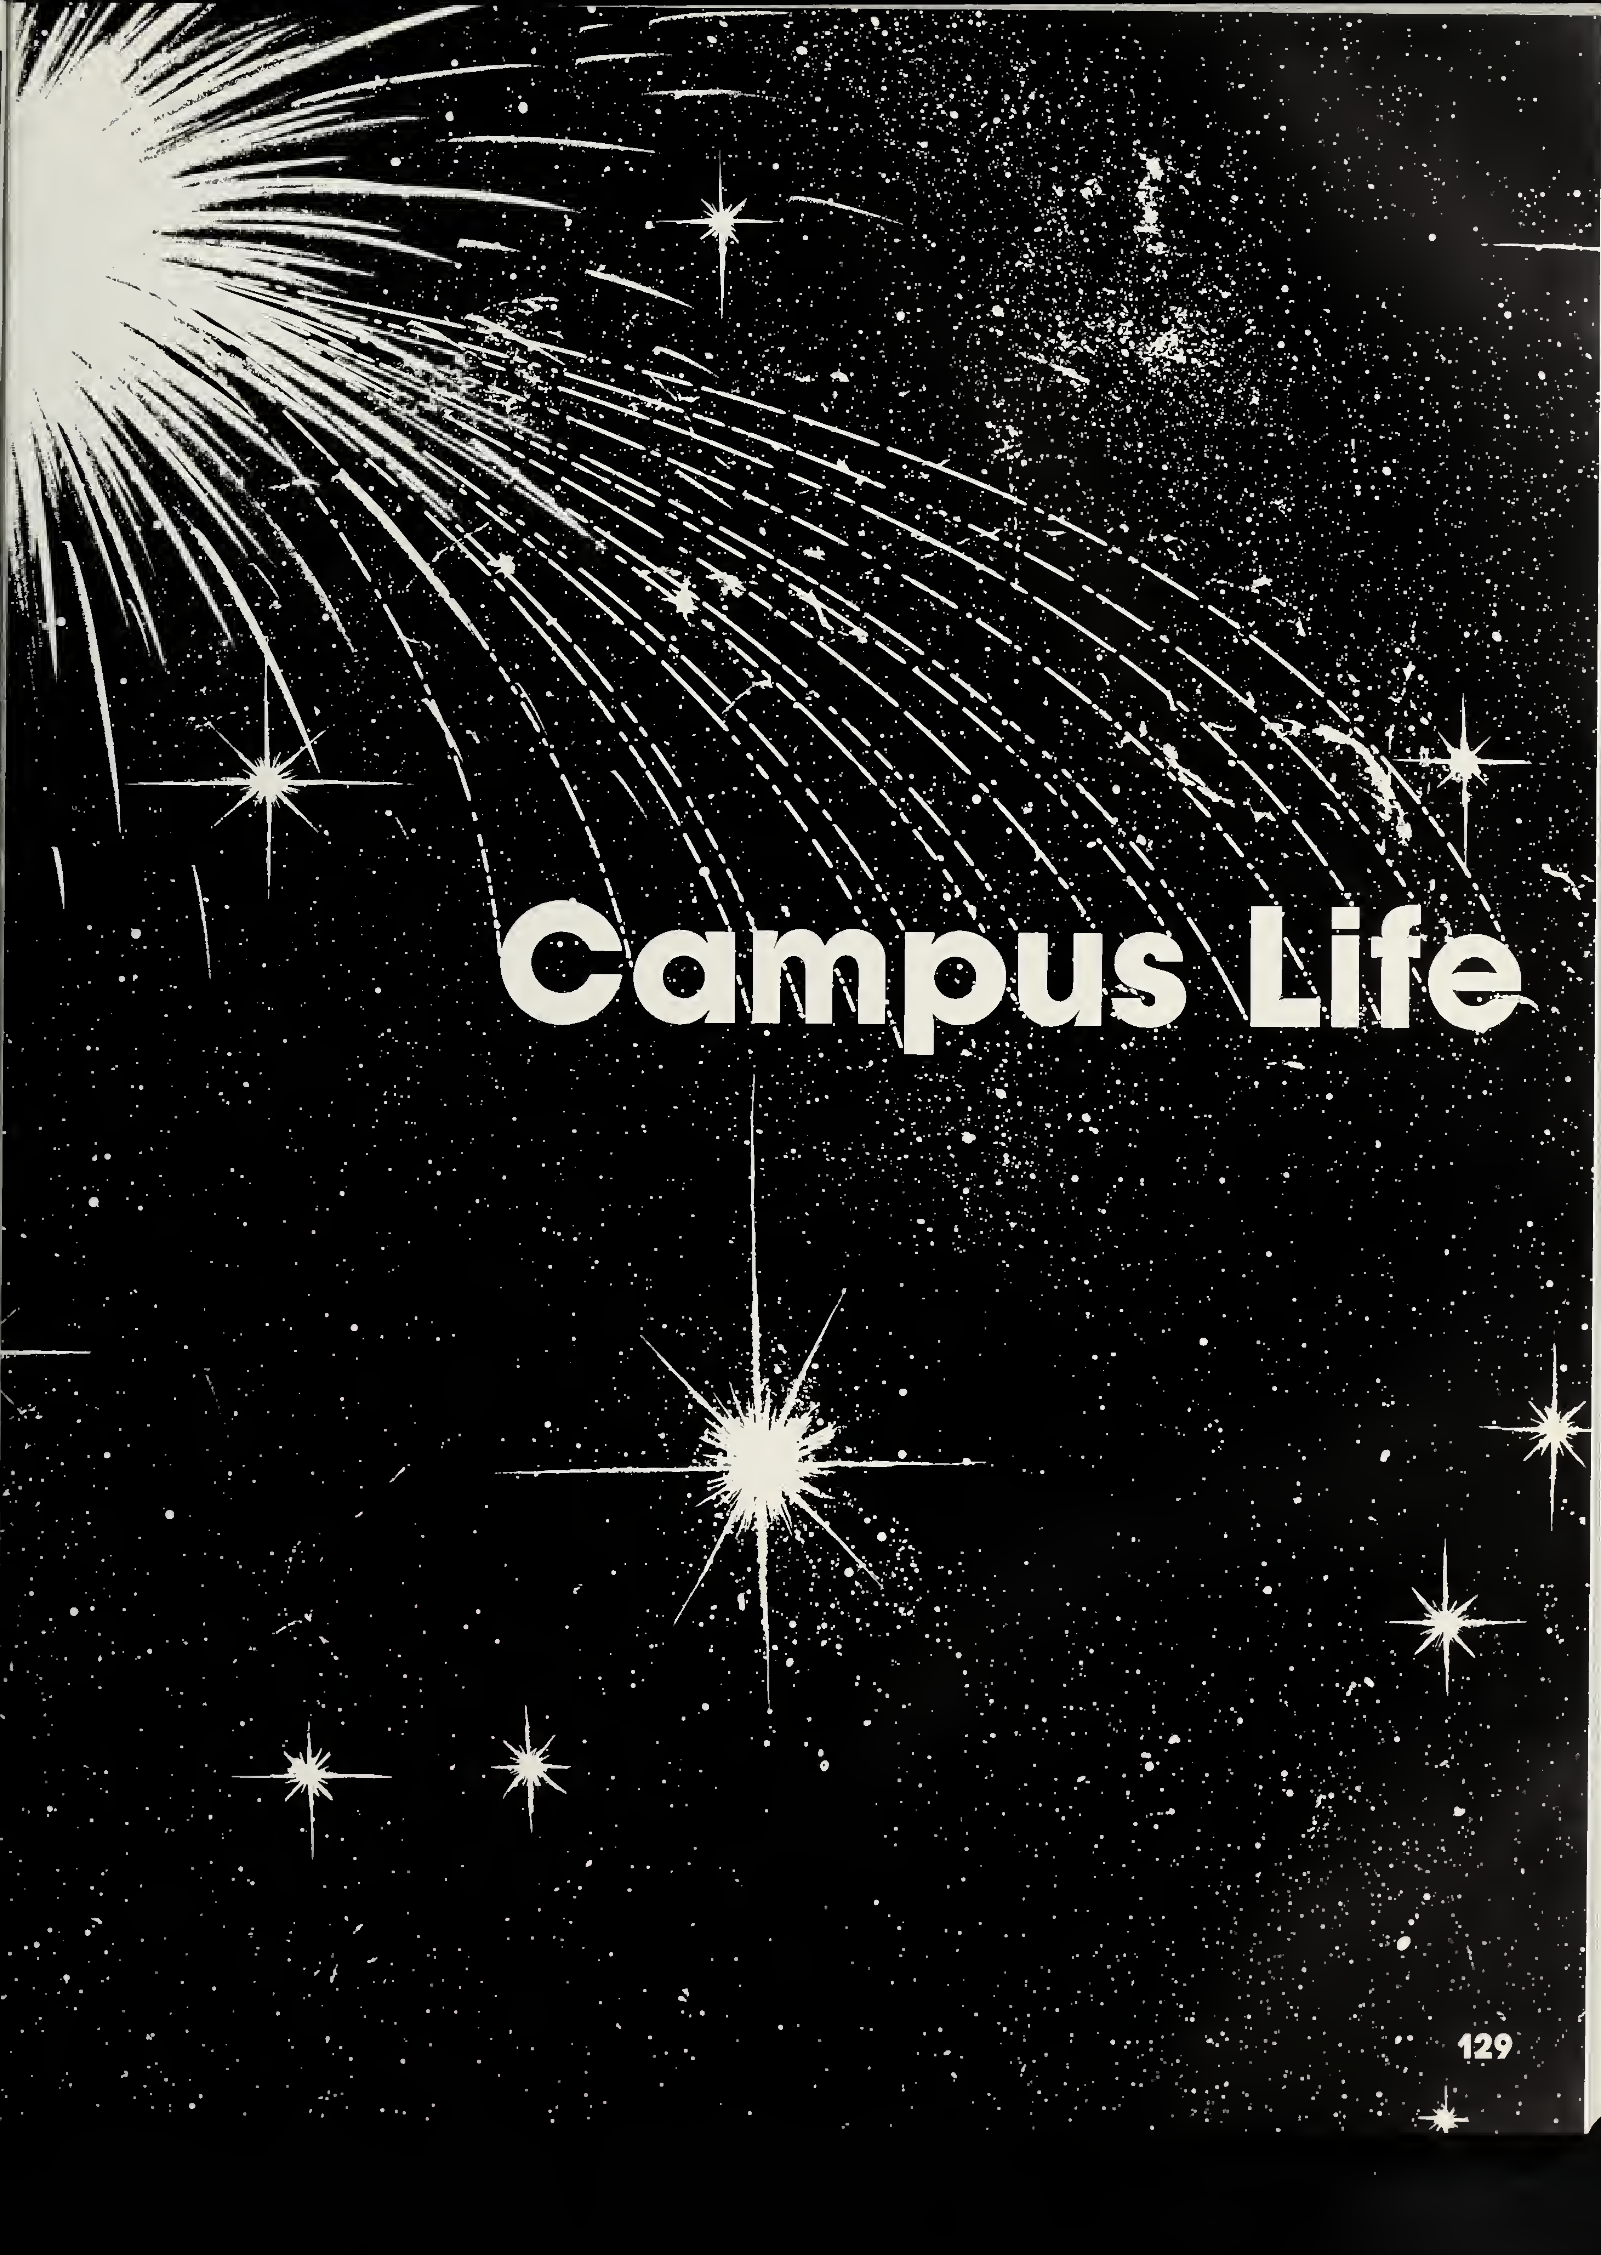
Campus Life



Campus Employment

(Above) Maclab monitor Mike Wengol welcomes students into the room with a smile. With pencil in hand, Mike is diligently working to copy over his History notes. Alas, his efforts are useless as he faces redundant endless streams of questions... "Do I have to have my ID?" "What does it mean, printer not found?" and finally the most aggravating assertion, "You can't close now, MY paper isn't done!"

(Below) Alex Cain holds the fort at the circulation desk of the library. Surprisingly, Alex keeps his composure as he searches for that special book in the vast collection of reserves.

As the costs of education continue to skyrocket, many students find themselves holding jobs. Although many find employment off campus, plenty do hold jobs here at Merrimack. Aside from the Post Office, the Computer Center, the Library and Resident Life jobs, students are employed in the Publications Office, the Admissions Office, the Security Office, the Writing Center, the Math Center, Marriot Food Services and various other stations on campus.

(Above) Working in Resident Life is definately not a dream come true, but Cheryl Leveille still keeps smiling. In the hectic office, there is never a dull moment. Commuters inquire about becoming residents, residents complain about their roommates and everyone stresses about room selection!

(L.) Merrimack "playboy" Chris Danoto checks out the first book of a sizeable pile. Working for the library, Chris performs various tasks. He checks out books, answers phones and aids students with any questions they may ask. **(Below)** Pat Higgins cruises the campus in one of the EZ-Gos that so many students would love to drive. Working for the Post Office, Pat delivers the mail to assorted offices on campus.

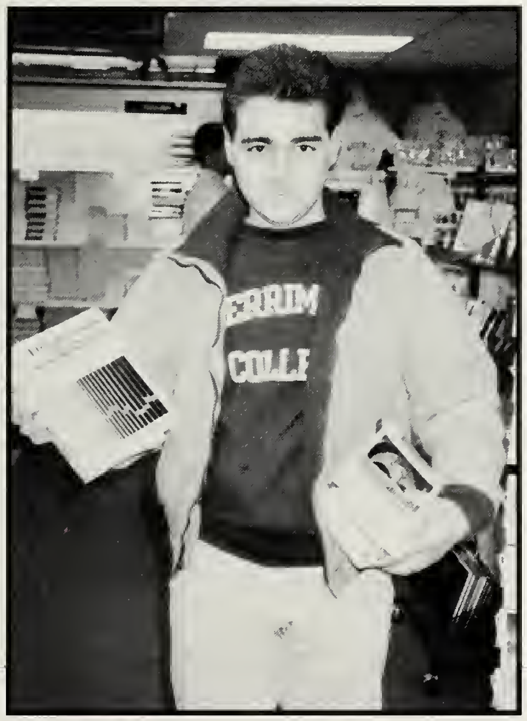
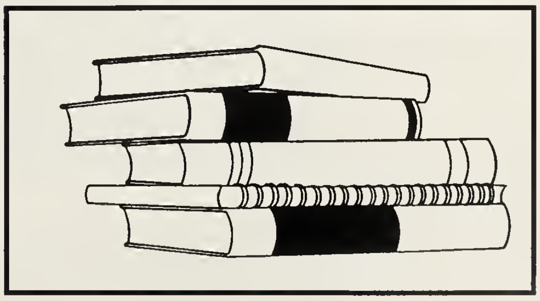
BOOKSTORE

One Cost that continues to burden college students is that of the texts. Paying an average of $200.00 for books each semester, many students question the legitimacy of their prices. Naturally, for every agitated student voicing complaints about the skyrocketing costs, there is the frustrated employee just doing his or her job.

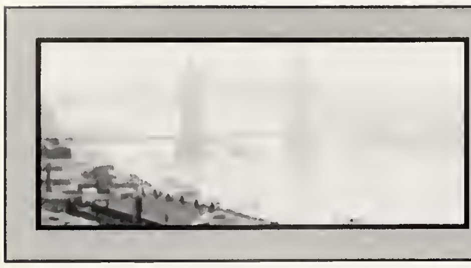
(R.) *After spending $180.00 on his books, Matt Gada told yearbook interviewers that the books are "too expensive." He went on to say that "You sell them back and they give you ten bucks for them and next semester they sell them for twenty five. It's a rip off!"* ***(Below R.)*** *Bookstore employees Dawn Stalfi and Jennifer Parker take a moment to pose for a photo. When asked what the worst part of the job was, both answered, "the cash register on a busy day." The employees expressed frustration about "everyone b____ ___ about how expensive books are." They were quick to remind us that they don't price them and reap any profits for themselves. After all, as students they buy them too!*



(Above) *Here, Meredith Weiss is seen bent over her recently acquired bookstore purchase. Like many students at Merrimack, Meredith finds the prices "ridiculous."* ***(L.)*** *Camera shy Karen Lambert calls Meredith Weiss over into the picture. Like many students do, the girls are sharing books for one of their classes As roommates, this will save the students money.*



Copy by Heather Fleming



Students Semester in London

To an American, visiting England for the first time can be reminiscent of the third world. Americans become very used to central heating, pulsating shower heads and the like. The all important television became nonexistent as well as the VCR. Radio was not much better, with a meager four channels on the dial, only three of which play music. The exchange rate rapes ones' wallet of practically all of its' contents and to add insult to injury, items in London are almost twice as expensive as the United States.

Overcoming my initial xenophobia took a couple of weeks. I soon realized however there was more to England than rainy Mondays...and Tuesdays and Wednesdays... It is a land rich in history and tradition. To see a country that has existed for hundreds of years without any documented constitution approaches the unbelievable. Walking into castles that had been built hundreds of years ago links one with the past in a way not possible in a classroom environment. It is especially significant to someone coming from a country which is a mere infant in comparison. In fact I had just recently walked around the corner from my dorm and noticed a plaque stating, "T.S. Eliot lived and died here." Now, I'm not a big T.S. Eliot fan, but there is something about it, almost like a posthumous brush with greatness.

It is also a country rich in monarchy. Americans find it difficult to see the the big to do about the Queen and royalty in general. I would say it is very similar to the way we feel about our flag. The people here have a fierce loyalty to the Queen, it is what brings them together. I wish we had a respect for our flag as they have a respect for the Queen. I do not think one would find many people here who would like to set fire to Queen Elizabeth II.

My visit here is one I won't soon forget. I've met a lot of people and done a lot of things, some of which I'd rather not share with you. Overall however I've had a great time and I'd definitely recommend it to anyone even remotely interested in studying abroad for a semester. It is something that brings a whole new perspective to being an American, and the 18 year drinking age seems to be resoundingly popular with the under 21 group studying here too!

Abroad

Spring Break in Europe

This spring 25 Merrimack students went with Professor Rich Duval to Brussels, Netherlands and France. The purpose of the trip was for Merrimack's International Business students to garner an understanding of foreign business practices. The trip was not limited to only International Business students. The students toured European manufacturing centers including a major brewery. Meetings conducted by the corporations provided an inside look at the differences between the European and American methods of marketing , management and production. With the coming changes in the European economic community, Merrimack students will have a better understanding of the change.

To my SR. Week roomies: Let the good times roll! I had a blast! Love, Hides.

Mom and Dad - Thanks for your support and love. Forever, Deb.

Mom and Dad- Thanks for your support and love. Love, Pamela.

To the Co-op crew of '90: I'll always remember: Nites, Murray, Line Dancing, Dress for success and all the rest! Thanx for the memories. Love ya, Donna D.

To Deb C. - Thanks for being a great girlfriend and I Love You. Dave M.

Shelley - Are you cereal when you say you want to make me sneeze? LV - Mike.

Belinda - Congratulations and Good Luck at PW!! Love, Marion.

Mooka Pini Nora McKillop Slinger, etc... what a year. We are halfway gone halfway there. You are the most bestest friends ever. Love You! JAM PS KD We miss you... Hangin in the haze, Fla, I got you babe, etc.

Trish - Anyone intersting out there? Congratulations and Best of Luck. - Marion

To my sisters in PTE, thanks for many great years! Melissa.

MRG: Thanks for all the great times, looking forward for many more with you. Luv, DMS.

With a great deal of heartfelt gratitude I thank all the people who have made this experience possible: Mom, Dad Staff, Faculty, Family and Friends. Love, George Tetreault

To the Co-op Gang: It's been a long five years and I'm all the better for knowing you all. You're the best! Love, Paula E.

Peter Crowell. Always remember, and I'll never forget. You deserve the best, so now is your time to go out and find it. Good Luck. I'll miss you. Love, Jodi. ex oh ex oh.

Alias "Snugglebunny" - You're a great friend and I care a lot about you. Best of Luck next year. Love always, Jim.

We must continue to live not only for our own existence, but so that others may live as well. Without this, our lives will be without purpose. G. Tetreault

To the Gang and Dave: I'll love you always. To Butch, thanks for being my number one cheerleader. Love, Debbie

When Marc asked, "If I went babysitting with yau and the kids' parents returned, where wauld we be and what wauld we be daing?" Liz Hamp responded, "We wauldn't be daing ANYTHING, I'm nat that type af girl."

(Above) MaryEllen Carkhum respands ta Marc Blanchard's inquiry, "Wh you're nat busy with school, what da yau like ta da?" A varsity athlete in Vo leyball, MaryEllen's answer reflects her lave far sparts. (Belaw) The Warriars D starts ta fill with students wating ta be bedazzled by the humaraus and eve papular Dating Game.

(R.) Rachael LaFrance chuckles as a spectatar at the Dating Game, an annual event spansared by the Pragram Baard.

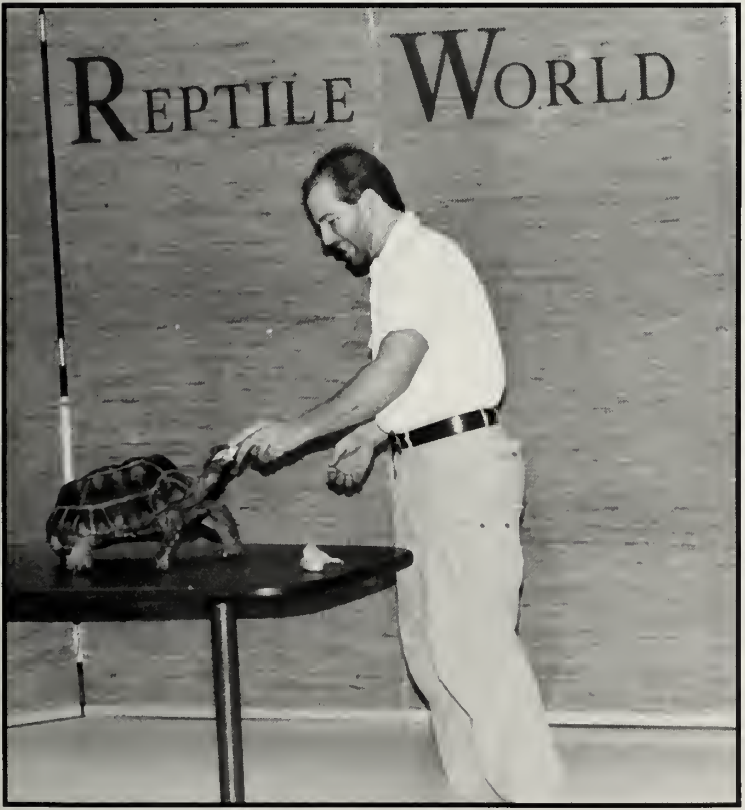
Reptile World

The crowd waited, totally mesmerized by the rocking crate. What would the next creature be? An alligator? A crocodile? A helomonster? Or was it a snake? Eventually all of these reptiles would creep and crawl out of their boxes.

Sponsored by the Program board for its second year, the Reptile World, the Reptile World came to Merrimack to entertain and educate students from Merrimack, and a nearby Haverhill elementary school. An albino turtle started the evening by nudging his head out to reach for a banana. For the remaining time, this little, wrinkled fellow roamed the area visiting the awe-stricken onlookers. Next, people would be entranced by the not so vicious helomonster. Suddenly, the crowd heard an ominous hiss emitted from Tex, the loveable alligator. It was obvious that Tex sought freedom from captivity. Having very little to say, the crocodile proved to be more subdued than the feisty alligator. The audience received their final thrill from the snakes. The creatures were frightening and definitely generated degrees of fear in the eyes of the onlookers.

We would like to thank George Miskimon for bringing the exciting world of reptiles to our campus.

-Heather Fleming



(Top L.) This alligator is looking to shake hands with anyone willing. (Middle L.) This lizard is small compared to its parents. (Middle R.) Although this python is only 5 feet long it can swallow an animal the size of a cat. (Left) Snapping turtles can take off a persons finger, fortunately for our daring host nothing like that occurred this time.. (Right) A bite from this rattlesnake can kill a person in 5 hours if medical attention is not received in time.

Comedy Night

The Program Board sponsors a number of Comedy Nights each semester. Local comics come to Merrimack and perform in The Warrior's Den or Murray Lounge. The events are always a big success, providing many laughs for Merrimack students.

Merrimack's Geographic Distribution

What kind of young adults come to Merrimack? There are many factors to consider when we decide upon which college to attend. One major factor in the decision making process? Geographical distribution.

At the present time, 93 percent of Merrimack's full time students come from New England.(77 percent of these students a Massachusetts residents) Tracy Bubencik, a freshman from Wollaston, Massachusetts, states her reasons for staying so close to home. "I'm close enough to home to stay near my family, yet I'm far enough that I'm away."

Some students, like Karen Walters of Fitchburg, wanted to go further away from home. "I was hoping to go further awa but I liked Merrimack, so distance was no longer a factor."

Most people who are here despite the close proximity of the school to their home, are here because they get the best of both worlds. They have a chance to be independent, and grow and mature, but there is always a mother to run to in a pinch.

Although there aren't many students that have strayed far from their homelands, they do exist. Merrimack enjoys a sma number of students from Oregon, Minnesota, Maryland, Florida, and other far away states. We even have students representin foreign countries such as Kuwait, Lebanon, France, Equador, and Switzerland. Jen Reilly, from Tampa, Florida states, "The nort had better colleges to choose from. I also wanted to see if I could succeed on my own far away from home."

Merrimack satisfies the needs for many types of students. Hopefully, the Mack will keep advancing and offering bold ne programs in the 90's!

-Megan Loudermi

GILDEA HALL

Through The SEASONS

MERRIMACK
COLLEGE

The Seasons seem to pass right on by the student's eyes as they attend to their studies throughout the year. However if you have never taken a moment to see their beauty, here is your chance to gaze!

ALUMNI RESOURCE NIGHT: 1990

On November 14, selected members of Merrimack alumni visited the campus to share words of wisdom to the students that hope to follow their footsteps down the strenuous road to success.

Alumni resource night enables students to partake in personal conversations with successful members of numerous fields, and to obtain first-hand knowledge of responsibilities and expectations soon to be faced. The interaction with these professionals is expected to instill upperclassmen with valuable insights on future interviews and potential career choices.

Upon their return to their alma mater, we thought it would be interesting to gather their opinions of Merrimack College as it forges into the 90's. While circulating throughout the room, we posed the following questions: 1. What is the most progressive change you have seen Merrimack institute in the past year? 2. What future changes do you think that Merrimack would benefit by? 3. How has your Merrimack education served you? 4. If you had one bit of advice to offer Merrimack students, what would it be?

Basically, the responses to the first two questions were similar. The alumni were excited about the new Science and Engineering building. Although the alumni were excited about the momentum of the Co-op Program, they voiced concern that the program needs to be expanded to include areas other than business and engineering. Students need additional preparation of how their education will be applied in the work force. Colorful responses were spoken by Ray Cabula and Jeanne Kane. Mr. Cabula suggested that the development of a new auditorium facility may spark some additional school spirit. We must keep in tune with the times. Jeanne Kane asserts that the school must institute a Masters program in Education. As requirements in the field of education change so radically, Merrimack must prepare students to the fullest extent possible.

Due to the nature of the second two questions, responses tended to be more personal. Dr. Gemmell, a dentist in North Andover, told us, "Merrimack provided me with a terrific foundation in Liberal Arts and Sciences. The value system matched my own, so my values were reinforced. Overall, it gave me the courage to be my own person." Raymond Cebula, a graduate of the history department, cited advantages of the small size. He told us, "Personally, the small size helped me. You weren't lost, and it was easy to get involved because it was so small." Perhaps, the responses to the final questions help discern what type of individual Merrimack produces. Dr. Gemmell urges, "Be true to yourself-pursue individual interests. Be happy in what you do. If you do these things you'll be successful." Ray Cebula insists, "Make sure you take it seriously. There is so much of a social life that it's easy to lose sight of studies." We'll conclude comments with Kevin Sullivan's inspirational suggestion, "Work hard-harder than the person next to you."

Overall, the evening was an educational and inspirational experience that was enjoyed by all that took part. Between the refreshments and enlightening conversation the setting proved to be both comfortable and relaxing. When events such as this one are organized and executed so successfully, a word of congratulations and thanks must be spoken to the masterminds behind the plan. We must voice our appreciation to the director of Alumni Relations, Reverend George Morgan O.S.A., for the time and effort that he put into this event. Additionally, credit must be given to John and Michael Iannuccillo, two students that helped to organize the event after the positive impression they were left with after last year's Alumni Resource night..

FIRE ALARMS:

Monican Hall is reporting another Fire Alarm

It's 3:00 in the morning. Your placid dream of white sand and sun is suddenly shattered by the drone of the Monican fire alarm. A similar scene is occuring at Andover's Central and Ballardvale fire stations, as the equally tired firefighters are aroused from their sleep. Merrimack College is reporting another fire alarm.

Of the 82 alarm activizations during the period from July 1, 1989 to February 23, 1990; 33 were malfunctions in the alarm itself, 24 were accidental, 23 were malicious false alarms, and 2 were actual fires or smoke. The actual fires were caused by smoke from a toaster in one incident, and a trash can fire of unknown origin. Accidental alarms run the gamut from shower steam to insects crawling around inside the detector. The most serious problem is the malicious false alarm. This is where somebody either pulls an alarm or discharges an extinguisher near an alarm. "False alarms are dangerous, somebody could need our help while we are investigating a false alarm," said one concerned firefighter. The bottom line is that fire alarms are not looked forward to by anybody, yet they are definitely an unpredictable part of Merrimack life. -Michael Ehrmanntraut

Into the Colors of Autumn

Warm summer days fade into the crisp days of Autumn and the start of a new academic year.

The last suitcase was packed in the car. The night before I had said goodbye to all of my friends, and the great times that had accompanied the summer. Though a part of me wanted the hot sticky summer days to linger for ever, I was definitely looking forward to being back at school. I longed to enjoy the cool, comfortable nights, the vivacious palet of falling leaves, and all of the fragrances associated with the fall.

The campus was lined with trees blanketed with leaves of all different shades. Adding something additional to the campus atmosphere, were the boys found sporadically on the grounds tossing a football or playing lacrosse. As usual, the girls had dragged out the couches to preserve the tans they had worked summer long to develop. Most were chatting about their summer experiences, or filling in one other on the pertinent gossip.

Reaching the apartments, I unloaded my bags and was hit by the never-ending gossip of my roommates. Once, we finally calmed down, we sat outside our window on the fresh-fallen leaves, not believing that fall was here, and summer was gone.

LIBRARY LIFE:

Living amongst the books?

Wandering aimlessly around the campus, peering into windows of the various dungeons, the prisoner seeks a means of escape.....

Endless hours are spent trudging through Anthologies in O'Reilly, battling with complex chemistry formulas in Cushing, and engaging in heated political debates in Sullivan. Stress becomes an overpowering factor as the student waits breathlessly for a release. Where should they go? What can they do?..

Wait!! In the distance, what is that light that keeps enticing fellow students towards its cente? Laughter and happiness seem omnipresent as the abundance of activity acts as a magnet to draw you in closer to this mysterious power.......

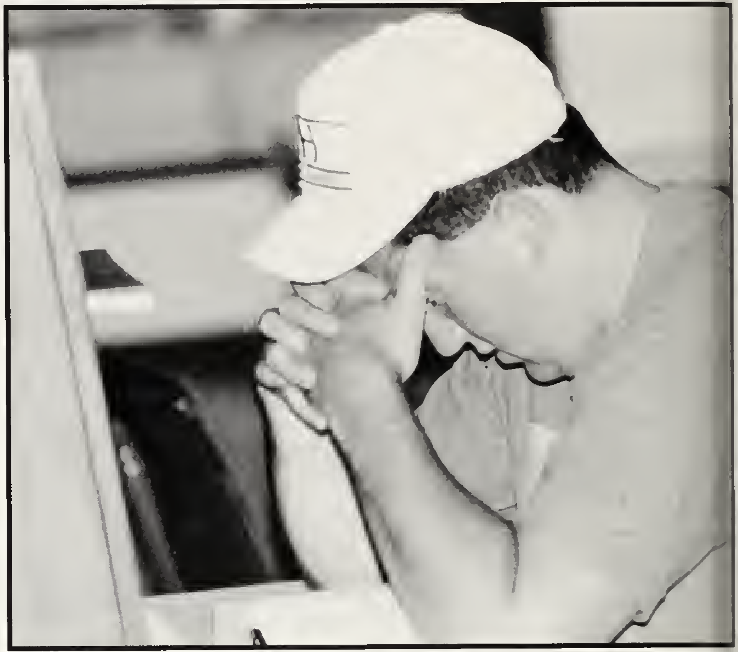
By now you wonder, where is this fabulous place? Welcome to the McQuade Library. On the surface, the building appears a normal, mundane library. Come inside, and look around. Do you still agree?

You are welcomed aboard by the bright smiling faces hiding behind the main desk. Occasionally, the smiles are darkened by that obnoxious student who has just started tomorrow's term paper, a paper on a mandatory topic of which all of the sources are charged out. Or, that student that does not know how to use the library, and couldn't find his way out of a shoebox. Usually, the attendant will look up at you from his or her work and help you at a moments notice.

Moving into the reference room, we see the diverse nature of the school. Students sit at the computers, hoping that their topic will have ample references. At the tables, students sit in groups studying for that exam, or working on that life-threatening presentation. Naturally, there are some students that are here to hide from friends, and problems, in search of the impossible, QUIET! There is always at least one Romeo and Juliet couple, lingering in the corner, whispering sweet nothings into one another's ears. Usually, this is the best place to come if serious work must be accomplished.

As we journey to the second floor of this enchanting building, we sense an unexplicable presence. Roaming from desk to desk are the social butterflies. They have plenty of work to do, but they have to find out who is doing what to whom, how, when, why, and for how long. There are a few serious students, sporadically located, quietly suggesting, "SSHHH!" Naturally, you can find the occasional product of study burnout, face down on the desk, taking that essential snooze.

Behold, the abundance of students, BEHIND CLOSED DOORS. What are they doing? They are brewing over the Macintoshes, IBMs, and the VAX system. It is obvious that this is

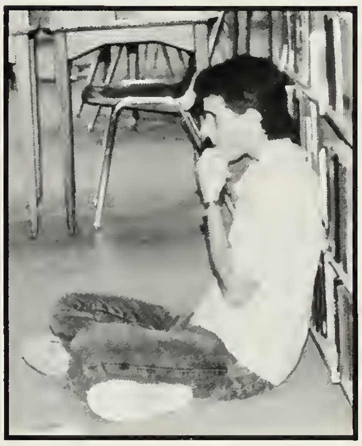


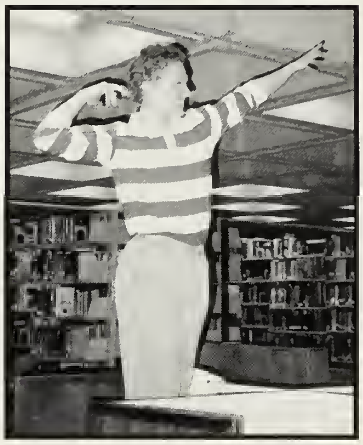
Above far L: Mike Isatti takes a break. Above: The stress of cramming. Below L: Marian Rafferty & Kieran Murray. Below L: John Spaaner takes a short nap. Below R: Adria Zilanis tackles her evening work.

old hat for many of them, as they sit alone, with walkman's blaring, lost in their own world, the music and the machine. One can't help but pity the poor souls that sit over the personal computers, typing that ten page paper, but only using one finger. It's going to be a long night!! Equally humorous are the students battling programming assignments in areas such as Pascal and Fortran. May-be someday they will realize that swearing at the computer will not ease the torture. Of course, we must not forget to mention the monitors, daily facing questions like, "Can you fix the printer? What's a system disk? How come my document will not open? and What does this error message mean?" Yet sanity remains.

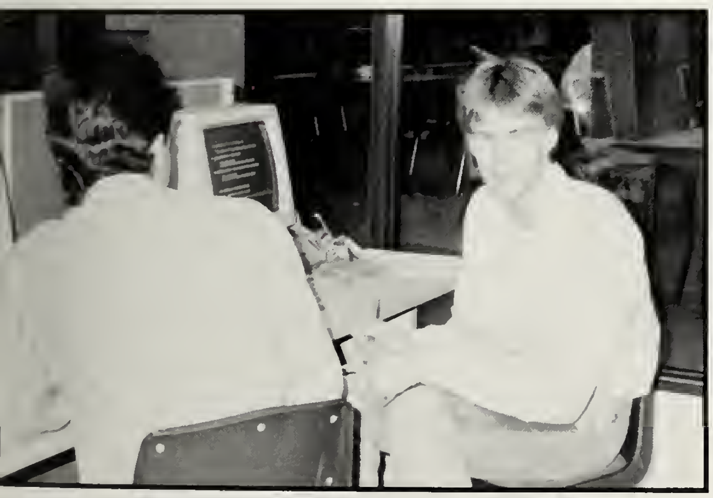
Alas, there is one more floor that we must venture through. they end up gazing out the windows, or losing the battle with sleep. Prison-like cubicles are located at various corners of the building. Supposedly, this seclusion will allow students to focus all of their attention on their books. In most cases, if develops their artistic abilities as they decorate the premises.

Last, but not least are the Math Center and the Writing Center. Students that are not totally image conscious visit these locations in search of help. Must they wait until the night before the test to visit the Math Center? Don't they realize that doing the homework would prove helpful? Similar problems exist regarding the Writing Center. If the paper is due tomorrow, how successful will they be in its creation? If a student has not read the book they must report on, isn't there going to be a problem?





Above R: PattyDowley concentrates amid the gossiping roar. Far R: James Henderson takes a stretch. Near R: George 'Ducky' Clement ponders McQuade's vast resources.



Above: Edward 'Floyd' Greenwood figures out his tutoring profits.

Right: Checkin' out the scene, this student questions the need to continue his nightly studies.

On these upper levels, we see numerous students gazing in- ently to the second floor. "He's with HER? Who's she, she's HOT!" Some students prefer to battle their studies in a window eat. Hopefully, their friends won't see them, so they can get work done. More often than not,

The day nears an end, the light fades away, and the library is closing.

Story by Heather Fleming.

Into the Cold Days of WINTER

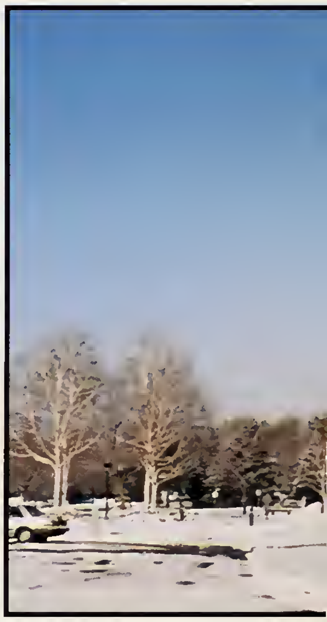
SNOW!!!

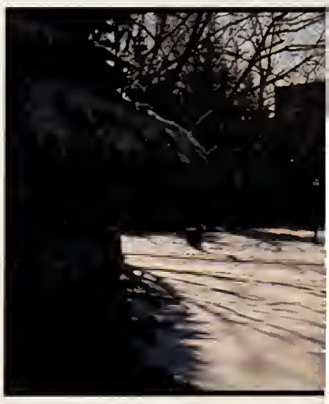
I was enjoying a good conversation with some flakes of mine one day when the clouds decided they wanted a rumble . . . I was on my way down!! I wasn't in the mood, but when the all powerful mother nature hits, there's no stopping her! I was 500 feet from landing when I recognized today's destination, Merrimack College!

Other flakes had often reminisced about wonderful things that had happened to them on the campus at Merrimack College. I landed smoothly and quickly glanced around. This place was **GREAT**! . . . but wait . . . I saw size twelve boots heading right for me. Luckily, . . . I was not a victim. Hanging around for about an hour or so, I soon grew quite bored.

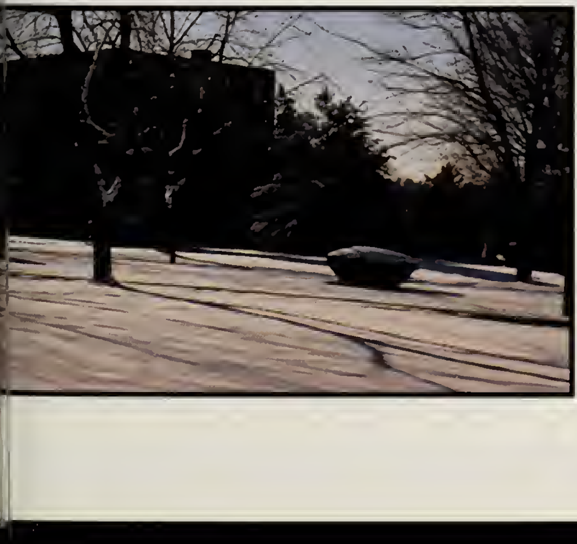
What about those great stories? Merrimack was supposed to be exciting, one of the most talked about spots by me fellow flakes! Wait! . . . I had opened my mouth much too soon. Before I realized what was happening, I was being tossed about by two students! Then, I had to put on my photographic face, as my picture was being taken! That was definitely the fun part. My luck took a turn for the worst as I was suddenly crushed by a piece of unidentifiable foreign debris!

Thank God Sunny come up the next day. Considering the days events, I had lots of fun, but everything is to me, after all, . . . I'm a flake!





(R.) Chris Belskis and Jim Keane get an early start on the digging out process while it still snows. (Below) this student is one of the many students who unfortunately found their cars snow covered, weekend after weekend. It was the winter of the snowy weekend.



Cooperative Education

Cooperative Education

Cooperative Education is a challenging program that gives students the unique opportunity to put their ideas to work while they earn their college degrees. Students enrolled in co-op integrate their formal academic study with actual work experience by alternating semesters of school and semesters of work.

Co-ops can choose from a small or large work environment. Some of the companies currently involved in Merrimack's co-op program include: The Boston Company, The Boston Globe, Contact East, IBM, Raytheon, and Walt Disney. Co-op experience develops confidence, poise, professional skills, and a career direction. Co-ops, as well as professors, firmly believe that learning does not stop in the classroom. When co-op students return to the classroom after a work term, they are excited, enthusiastic, and can relate better to their topics of study.

Classroom instruction and on-the-job training is a dynamic combination which assists students in identifying and refining career goals before leaving the security of Merrimack College life. Co-op graduates aren't just ready to begin work, but because of their acquired work experience, self-confidence, and business sense, are prepared and willing to meet and exceed the bold new challenges they

The Christmas Reception

(Above L.) Unfortunately the dance floor is not too packed for these women, since only twenty-eight people attended this year's Christmas Reception. (L.) Mike Ehrmanntraut and Shelly Bonert make the most of the night. Although attendance was down, everyone had a great time. (Below) Father Deegan greets parishioners and members of the college at a reception following the lighting of the trees at the Collegiate Church of Christ the Teacher.

...Continued from page 171

"I don't understand why anyone would not want to join co-op."

This is a common statement heard when speaking with cooperative education students about their thoughts concerning the program. Granted, the co-op program does not guarantee a corner office in a multinational company with a take home pay that would make Donald Trump green with envy, but neither does a college diploma.

Co-ops will agree that their co-op experience is well worth the extra year it takes to complete the program. A co-op job can be a positive learning experience where one can not only learn about a chosen career but about oneself. Co-op jobs develop technical as well as communication skills. But like other jobs, co-op jobs can have their negative aspects such as : bad days, a hectic and pressure driven work environment, uncooperative co-workers, too much or too little responsibility, unsympathetic supervisors, and long hours. These positive and negative aspects contribute to the learning experience that cannot be taught in a classroom, the learning experience of **life.**

*Angelo Colzetto, Donno DeVelis and Vinnie Laiosa, members of the Co-op Co are hard at work mailing the **Warrior** to off-campus working co-ops to keep informed.*

Hazy and Crazy Days of Summer

As the song said, "roll out hose lazy, hazy, crazy days of ummer". Unfortunately, for hose of us business co-ops who pent the summer in school, only he last two adjectives domiated our summer.

As most students would hink, one would have to be razy to be anywhere near Aerrimack College in the hazy ays of summer. Joining co-op as the decision we all had nade and that decision meant bending two summers in class.

There was no time to be lazy with courses such as Business Policy or Productions on our mind. Our summer was broken into two six week sessions. Each session was composed of either two or three courses. Each course was held every morning during its six week duration. Due to the lack of course choices, we were pre-registered with a heavy course load of business and major requirements leaving little or no room for electives.

Some pressure-driven students had their best academic semester during the summer, while others just melted in the summer's heat. Although, a sense of strong camaraderie and friendship developed, especially between fourth year students. Phrases such as, "I made it" turned into "We made it!"

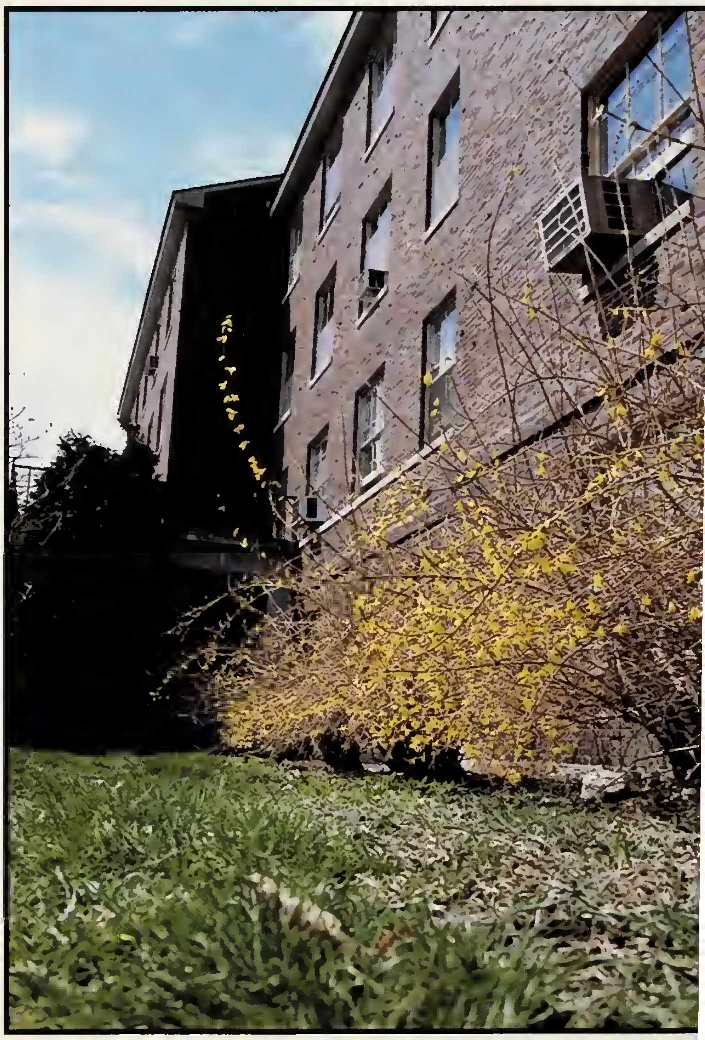
The sacrifice of our two summers, most of us feel, was well worth the benefits we derived from co-op. But as the temperature rose above ninety and the fans blared on the fourth floor of O'Reilly, we couldn't help daydreaming of fun-filled days, while our throats longed for "days of soda, pretzels, and beer".

All stories ond oll other photos by Poulo Essick.

Into the Growth of SPRING

Spring Diversions

DAMN ALARM! There I was on a Thursday morning with no where to go, but out of bed for an eight o'clock class. Sensing the beads of sweat upon my body, I quickly rolled over to turn down the electric blanket. God, it was hot in here! I contemplated pressing the snooze button for the eleventh time, when I stole a peak outside. Unbelievable, look at those rays! They were incredible! I jumped out of bed to take it all in! It was a tough decision, but I knew what had to be done. Should I do it! I dug my shorts out of the bottom of the closet, called my friends across the hall, took a shower, and grabbed the car keys. We were out of the door like a flash headed for Hampton Beach, so much for Philosophy! I decided to take the book with me, but whether or not I would open it was another story. I'll leave the decision to your imagination! — **Kristen Smith**



Clubs & Organizations

ACM: Association for Computing Machinery

ACM is Merrimack's student chapter of the Association for Computing Machinery, an international society of professionals and students interested in a number of areas in the field of information processing. Our chapter organizes several interesting activities. Members run a high school programming contest, attend programming contests at other universities, sponsor lectures by professionals and can attend ACM national conferences.

This year, the Merrimack Chapter of ACM sent three students to the national conference in Washington D.C. and held another successful programing contest.

Alternative Voice

The Alternative Voice is the newest student run publication at Merrimack College. In our first semester, during an SGA probationary period, we put out two issues of the magazine, advertised extensively on campus for staff and submissions, and met often as a group to work out the direction we wanted the magazine to take once it was recognized by SGA. Some of the highlights from the first semester were a pile of great poetry by Matt, Janine, Eileen and Ben Costa, a photo essay by Joseph Cardello, fiction by Tim Prisby and a satirical poke at the administration by Eric Labbe.

The response we received from students was overwhelming: both from those who sent in their writing to be published and those who read the new magazine for the first time. (Response from the administration amounted to a few clandestine phone calls and memos by a certain Dean to ascertain the origin of this new threat to the tower.) We discovered that there was a need for a literary magazine on campus and that there were plenty of great writers at Merrimack waiting to be heard. At the end of the first semester, we were officially recognized by SGA and were granted a supplemental budget to help publish three more issues in the Spring. All in all, The Voice got off to a strong start here at Merrimack this year and you can expect to be seeing it for a long time to come.

We would also like to take the time here to thank everybody who submitted their work; we couldn't have done it without them. We would also like to thank our advisor, Al DeCiccio and Kathy Cain, Director of the Writing Center, for their collaborative support; the Printing Center for their help in production and printing; and everybody in SGA and Student Activities for their advice and support. Thanks for a great year.

English Club

The English Club continued its resurgence as a force to be reckoned with on the Merrimack College Campus this year. Under the leadership of Paul Sullivan, Eric Labbe, Cinde Veinot and Kelly Leighton, the Club sponsored a lot of great activities over the course of the year in an effort to sponsor an appreciation of literature, fine wine, good dance music and the general overthrow of middle class values wherever they may be found.

Over the course of both semesters, The English Club held a number of symposiums for all students and faculty who may have written something which they wanted to share with people. A large group of faculty, students and alumni read and listened to some of the best writing to be found anywhere on campus (most of which mysteriously made its way to the pages of The Alternative Voice). The highlight of the first symposium was a dramatic reading by Matt Kraunelis of his temperature raising poem "The Veneration." The end of the first semester was capped by a Christmas party at DiBurro's in Haverhill where everyone ate, drank and danced the night away to music provided by Paul and his eclectic music collection.

Second semester was highlighted by a trip into Boston to see Kathleen Turner in "Cat on a Hot Tin Roof;" a highly intellectual time was had by everyone but the men.

We would like to thank Kathy Cain for being our advisor and showing us the proper way to act in any difficult situation. The English Club had fallen on hard times for a while but is now back with a vengeance ready to deconstruct anyone who crosses its path for many years to come.

The Co-op Council

The Co-op Council is concerned with unifying co-operative education students by providing a representative body through which co-op concerns, grievances and opinions can be aired. One of the major concerns of the council is to keep co-op students who are working informed about college activities and an active part of campus life.

A major accomplishment of the council this academic year is the recognition of co-op students at graduation. The traditional graduation ceremony will have a new twist when co-ops will sit in a special co-op section within their major. This type of recognition has been long sought by co-ops, and due to the devoted Co-op Council it has become a reality.

Biology Club

The Biology Club has been a functioning organization at Merrimack since the 1950's. The club serves to acquaint its members with the various fields of the Biological Sciences through the use of speakers from biological professions, attendance of seminars, and trips throughout the New England Area. Membership in the club is open to students of the Biology department as well as any students of the Merrimack campus holding interests in the Natural Sciences.

The Biology Club plays an active role in the aid of the underclassmen of the college in that it acts to help new students in their adjustment to the college as well as the regimen of the Biology Department. As part of this service, the Biology club offers free tutorial services to any members of the student body enrolled in science courses.

Activities sponsored by the club which have been successful in the recent semesters cover numerous fields of the sciences. Among these trips have been tours of Woods Hole Oceanographic Institute, the organization responsible for the recent discovery of the Titanic, day-long hikes in New Hampshire's White Mountain region which took the club through natural glacial gorges as well as to the top of Mount Monadnock, and visits to area Science Museums for exhibits and film presentations.

A future goal of the Biology Club is to instill a seminar system in the Biology department which would allow the students to present their own research findings to their peers, as well as attending presentations by a set schedule of area speakers.

Front L-R: Mary Fleming, Linda Fleming Back Row L-R: Anita Ballakur, Dottie Haverty, Matt Stafier, Rob Bombard, and Harry Williamson.

Accounting & Finance Society

The goal of the Accounting and Finance Society is to acquaint the students with the numerous options available to them in these fields. As the public, private, and government sectors continue to evolve, we strive to organize events and provide information that will address current trends and issues. We enthusiastically support the belief that it is never too soon to begin investigating potential career paths.

Among the highlights of 1989 - 90 was our affiliation with the National Association of Accountants. The charter, granted in November of 1989, was made possible through the collective effort and encouragement of Professor John N. Slipkowsky, Maurice J. Labine, President North Shore Chapter and the Society. This is a liaison that will strengthen our link with the business community, provide students with further opportunities to establish contacts and place the society in a better position to provide students with valuable information on the private sector. Thus far, we have had a "Corporate Night," featuring five speakers from private industry and a film dealing with ethical issues that a managerial accountant may confront.

During Fall recruiting, we hosted "Big Six Night," as well as several individual receptions for public accounting firms and the students selected for interviews. On one occasion, six Merrimack alumni currently with Arthur Anderson & Company came to speak about their experiences and the recruiting process. Instead of dark suits in the Arundel Room, it was jeans and sweatshirts in Sullivan Hall! These hours of informal talk, questions and answers proved to be relaxing, informative and fun.

The Society also assisted the Office of Institutional Advancement, Cooperative Education and Business Division Faculty in planning a trip to New York City for March 1-2. The highlights of the trip include a dinner/reception with Merrimack Alumni currently working in New York and a tour of the New York Stock Exchange.

As of this writing, all five of the student business organizations are planning for the 15th Annual Business Banque
It is an evening of dinner, dan
ing and recognition for all Bus
ness Division professors ar
students. We intend to make th
year's the best yet!.

The Benzene Ring

The Benzene Ring Society is the chemistry club on campus. We are one of the oldest student organizations, established back in 1951. Our club involves itself in extracurricular and interdepartmental activities. We have academic and social events throughout the semesters to encourage both Friendship and personal growth. The main goals are to enjoy academics, both as students and as friends, and to achieve an awareness of the importance of science in today's society. Both on and off campus, we establish bonds with faculty, staff, and students that continue beyond our Merrimack years.

The Chemistry department offers a rigorous degree with innovative laboratories. There is a total dedication o teaching excellence. The trength of our Chemistry department is best measured by the achievements of our graduates. We are extremely proud of their proven success as they continue o achieve their goals.

1990 Class Council

We finally made it! It's all over guys! No more meetings, no more elections and no more hassles! It wasn't all that bad though. We put on some great events. We were quoted as being the best Class Council that ever came through Merrimack College, (what fool said that?) We provided some great times for the Class of 1990. From breakfast in bed as freshmen to senior week. Remember the Patriots game? The class cook out? Alumni night? Junior week? Trips to Fanuel Hall? And Senior week? We put in a lot of time, hard work and dedication. We all deserve a pat on the back. The senior class would not be the same without us leading them towards Graduation day. If we all display these same leadership qualities throughout life, we will be a definite success. We were a team, the best team there ever was. Good Luck Guys!

1991 Class Council

The 1991Class Council's main job throughout the year was planning and preparing for our Junior Week. A great amount of time, hard work and dedication from everyone was necessary to carry out this responsibility. Hopefully the week, which includes a Luau, Russ Burgess, Comedy/Band Impersonation Night and the Junior Ball will be a great success.

During the year we took part in and ran activities for the class such as the school carnival and the Night of '91 Party.

Although it was a very busy year, it was a lot of fun. This year holds a lot of great memories.

1992 Class Council

The Class Council of 1992 is working hard to represent it's members and fellow students. We try to create and follow through with activities that will reflect the needs and wants of our class. In order to get a clear idea of what these needs and wants are, we are currently underway in establishing an open meeting once a month for all members of the Class of 1992 to attend. By all working together we can truly prove that the Class of 1992 is "Striving for Excellence."

ASCE: American Society of Civil Engineers

The student chapter of the American Society of Civil Engineers at Merrimack College is an affiliate of the ASCE National chapter. Its members are not only members of the student chapter, but are members of the national chapter, and continue to be when they graduate.

ASCE provides its members a means to develop professionally, as well as mentally, in the field of civil engineering. The organization prides itself on its ability to organize and complete various community projects. The Student Chapter of ASCE has completed projects such as: a handicapped ramp for the Fidelity House in Andover, the footbridge over the wetlands between the St. Annes Apt. Complex and the adjoining parking lot. We presently have in the works the refabrication and reinstallment of a 125 year wrought iron bridge which was located over the Southern Canal in Lawrence.

Other activities include: Civil Engineering related field trips, professional lectures on Engineering topics, and ongoing relations with other student chapters.

The College Democrats

The College Democrats of Merrimack College was founded in 1988 to promote Democratic ideals at Merrimack. The 1989-1990 academic year was our first year as a recognized and funded organization on campus. During the Fall Semester Merrimack's CD's helped educate the college community about Amnesty International's fight for human rights, by holding a colloquium on Amnesty during Peace and Social Justice Awareness Week. The colloquim focused on Amnesty International and the Massacre of the Chinese tudents in Beijing last spring. he CD's also showed the movie CRY FREEDOM, a movie about South African Black Rights Leader Stephen Biko, during the &SJ week.

In the spring semester the CD's involved Merrimack in Earth Day 1990, a big nvironmental event which ocured on Sunday April 22nd. Merrimack's CD's planted a ee, to help realize Earth Day's goal of planting a million trees. The CD's planned their biggest vent during this semester. We eld a forum between the 1990 emocratic Gubinatorial candiates, which was very successul.

The future for Mermack's CD's looks very promisg. It is our hope that the Colge Democrats will grow not nly in size, strength and imporance but also as a means of creasing political awareness nd participation on campus.

AMA: American Marketing Association

The Merrimack Marketing Association has become one of the hottest, most talked about student organizations on campus. With a membership all time high of 100 members, our club is the one to join! Our club objective is to have active members that participate in various activities helping us to achieve our goals. Our activities include fundraisers, social functions, helping the needy, supporting less-fortunate children, trips to Penn State, and trips to New Orleans.

Our membership consists of all majors, not only Marketing majors. This diversity of interests goes hand in hand with the success of our events.

The College Republicans

On the threshhold of a bold new look, the Commonwealth of Massachusetts is gearing up for the 1991 Gubernatorial race, and the CR's will be there to offer their support. Under the leadership of Chairman Bob Mcleish, Vice Chairman Jim Murphy, Treasurer Tom McDonald, Secretary Steve Ehrmanntraut, State Rep Stephen Skoczolek and the every helpful advisenement of David May, the CR's took time to help the Republican candidates in their pursuit of office. Our hands on work in various campaigns llow us to gain valuable camaign experience. Our work n campus includes participaon in the annual Peace and ocial Justice Colloqium, and inner meetings which foster ebate among members on urrent political events. Memers represent a cross section of ll majors who believe that conervative rule have led this couny to the place where it elongs- the top.

Economics Society

The Economic Society was reestablished in the Fall of 1989 due to pressure from students who felt the need for an arena in which various economic issues could be discussed and events planned to increase the student body's awareness of the far reaching impacts of the rapidly changing economic conditions of our generation.

Professor Evangelos Charos coordinated the reorganization and election of officers: Lynn Freedman, Scott Bashaw and Steven Cataluchi to accomplish the club's objectives for the 1989 - 90 academic year. One highlight of the year was a panel discussion on Socialism and the condition of State and Federal deficits which helped to clarifiy the complex factors surrounding these issues. The club sponsored Rand Wilson, the organizer of the NYNEX strike, to discuss the positive and negative aspects of unions. Lastly, the economic Society proceeded with the necessary steps in order to affiliate our school with Omicron Delta Epsilon, a prestigious economic honor society. The first Merrimack students were induc during the spring semester c dinner held in their honor.

Below left: "It takes a steady hand-on-chin to sort out Massachusetts economic conditions", says Tom McDonald.

History Club

T he History Club has en-
oyed a resurgence of popularity
over the past two years. This is
due to an energetic membership
of students from all majors.
Presently, our membership
ranges from business to the sci-
ences, and a majority of history
and political science. Many of
our members have been in-
ducted into Phi Alpha Theta, and
he International Historical
Honor Society. Contrary to
opular belief, we do not sit
round and discuss the history of
nankind. Some of our annual
ctivities include a trip to the
Auseum of Fine Arts in Boston,
s well as walking the Freedom
rail. Periodically, we have
hown films with historical sig-
ificance such as "Bill and Ted's
xcellent Adventure", "Danger-
us Liasons", and "Monty Py-
hon and the Holy Grail."
Over the past year we have
een honored with several guest
peakers whom have given their
me to present new ideas to the
lub, and the Merrimack Col-
ge community. Dr. Arthur
edoux, from our Philosophy
epartment, spoke on his expe-
ences living and teaching in Sri
anka. As part of Campus Min-
try's Peace and Social Justice
wareness Week, Dr. James
AcCann of Boston University's
frican Studies Department,
ave a Colloquia concerning the
nportance of understanding
frican refugees. Dr. Thomas
achey of Marquette University,
so have a colloquia on Irish
istory. Both appeared on the
ble program "World Cultural
ews", hosted by the Club's
dvisor, Dr. Phillip Naylor.

Frontiers

The dawn of a new decade is upon us, and Frontiers is there! Frontiers is Merrimack's science appreciation society. Frontiers embodies all aspects of science, from the latest in laser technology to far out science fiction. Frontiers prescribes to a bold new look in campus leadership. All executive board members have equal power, and are called High Councilors.

"Live long and Prosper"

Left: Front L.-R: Bob Simpson and Brian Courtemanche. Back row: Paula Grogan, Anthony Gregory Michael Dudzic, Jackie Wormold, Michael Ehrmonntrout, Marion Rafferty, Steven J. Ehrmonntrout.

-photo by Michelle Choput

Even though Frontiers is new on campus, we have been kept very busy. We completed our first in house science fiction television commercial to advertise our club.We held a 24 hour science fiction movie marathon in Monican Hall, ran two successful assassination games on campus, and co-sponsored a trip to the Boston Museum of Science's Laserium exposition "Summer of 69".

Plans for the 90's include full production of a science fiction movie, science orientated speakers, and more fun filled trips to exotic places.

Merrimack Entreprenuerial Network

The Merrimack En- epreneurial Network is an rganization composed of Mer- imack College students, faculty, usiness professionals and racticing entrepreneurs dedi- ated to promoting the opportu- ities, that Entrepreneurship of- ers providing a medium for the xchange of ideas information nd inspiration. By addressing e needs of our members, we ave designed programs that ill bring our members together foster an environment where iendships and contacts can be ade, while at the same time ffering valuable learning op- ortunities. Our events include, ut are not limited to, meetings nd seminars with entrepre- eurs, conferences such as The nterprise Forum which we co- onsored, meetings at the best usiness organizations in the oston area, company tours and r the future, business plan fo- ms where entrepreneurs will ve the opportunity to present eir business plans before a nel of experts and an audi- ce of students and profession- s. In addition to our events, we ovide our members with var- d services including listings of ntacts at various organiza- ns and companies and a cal- dar of the major events di- cted toward entrepreneurs by business organizations in the eater Boston area.

We feel that the benefit our organization is in our ility to contact and meet suc- ssful entrepreneurs who uld be unapproachable to the rage person or organiza- n. One of our favorite accom- shments this fall was the company tour of Octocom Systems Inc., the Small Business of the Year and the seminar of starting a company by its founder and CEO, Ian R. Davison. Mr. Davison, who has started over eight companies in his thirty nine years, gave a spectacular slide show and presentation on what it takes to start a company in the global marketplace. The faculty and students who attended had the opportunity to meet the major executives in this growing firm whose average age was twenty eight..

Law Society

The Law Society brings students with an interest in the law profession together with the hope of advising them and aiding their quest as they prepare to enter Law School. Overall, the Society was started with the intentions of helping students to prepare for the LSAT's. Additionally, it was created to increase the oppurtunities for potential lawyers by holding activities which would enable them to become acquainted with various professionals in the field. The Law Society welcomes students of all majors. The Society sponsored a guest speaking appearance of Paul Tsongas, and sponsors trips to the New England Law School Forum.

Merrimaction

Spring Break, a time when many college students head for the sun and warm beaches a small band of Merrimack students head for the woods and the (hopefully) warm wood stove. A time honored tradition, the "Spring Trip" is the piece de resistance of MERRIMACTION, a student organization under the auspices of The Campus Ministry Center. Students and other members of the college community spend the week working for a cooperative of low income people in rural Maine. We build homes, work in the woods and do what is needed while we are there.

Other activities include participation in the Peace and Social Justice activities, fast day for hunger relief and other projects throughout the year.

Having fun while helping others! MERRIMACTION!

M.O.R.E

The Merrimack Out-Reach Experience (M.O.R.E.) retreat program is a student run organization in conjunction with the office of Campus Ministry designed to create an outlet for students and other members of the Merrimack College Community. Five to six times each academic year, M.O.R.E. sponsors weekend retreats for interested students and faculty. The goals of the program are many. We attempt to help develop awareness and security with respect to ourselves, our riends, our family and to God. Above these concepts the M.O.R.E. program is an xcellent method of getting away from the hustle and bustle of our everyday lives while making new friendships, strengthening old ones and having fun. We try to give participants a feeling of self confidence that will enable them to confront the adversities which each one of us faces every day. Whether the retreat travels north to the mountains or south to the beaches of Cape Cod, it will be an out-reaching experience that will live within you forever.

Psychology Club

The Psychology Club ponsored two events in the Fall emester:

An Eating Disorders eminar that discussed the edical, psychological, and ociological factors including ymptoms and possible eatment. Maureen Hickey, an N at Hampstead Hospital, poke.

An Aids Seminar where e had two speakers. Michael ooke, a counselor at ampstead Hospital spoke bout the Aids virus - causes, ymptoms , risks etc. Dr. Gerald ugal, Director of the Hamel ealth and Counseling Center poke about Merrimack's policy on Aids.

We also attended the annual New England Psychological Association Conference (NEPA) at Framingham State College. Many popular topics in the field of Psychology were discussed.

This semester we hope to have more speakers and more field trips, as we hope to expand our knowledge of Psychology.

Back L-R: Julie Jeffrey, Dianne Ludwig, Renee Arriga, Devany MacIntyre, Michael Brown.

Program Board

Hi! We're the Program Board. We're an organization to entertain. We do that by having a great time and by gaining experience. It's an organization where you gain friendships that last forever.

We have a great semester planned. We've introduced the "One Night Stand" series including comedy and a variety of other entertainment done a bit more professionally. Included in this series is this year's "Dating Game" hosted by Bill Costa and co-sponsored by The Commuter Council. Also we've introduced Sunday Night Movie Classics every Sunday Night, besides our regular unreleased reel to reels.

In addition to all this, the Program Board handles Spring Week. This year we'll have Club Coca Cola Video Dance Party, a laser light show and a variety of smaller activities such as "Star Trax," a recording booth where you can record yourself singing to your favorite songs.

The Program Board in general is a ball, it is everything positive besides its tendency to look great on a resume.

REPTILE WORLD

S.A.M. Society for Advancement of Management

The Society for Advancement of Management (S.A.M.) is an organization that s open to all majors. It is a professional organization that offers students an opportunity to meet new people and help them o gain more knowledge in the business field. At the present ime our organization is elatively small, but it has the potential of becoming a larger and more established organization.

S.A.M. sponsors three major events, including: our Annual Crafts Fair, the Business anquet and the Case Competition. Throughout the ear we also have fund raisers nd many other events. The National Case Competition is where S.A.M. clubs from colleges and universities across he country present a given case o a panel of judges. Last year he competition was held in St. ugustine, Florida on the eekend of March 29th. This ip is both an excellent learning xperience as well as a fun acation. The Merrimack .A.M. club has won the ompetition for the previous two ears and achieved second ace to a team of graduate udents the year before. ecause of its' successes the errimack team is well ecognized and respected by the her colleges and universities tending the competition.

S.A.M. also has various awards on both the national and gional levels. These being: the utstanding Student of S.A.M. ward and the Outstanding tudent of Management award. tudents from Merrimack in evious years have been ominated for and won these awards.

Front Row L-R: Nancy Naddaff, Stella Papafagas, Allisan Caleswarthy, Laurie Pilla, Danna Develis. Middle Row L-R: Belinda Brady, Laurie Bardae, Jahn Vaccara, Julie Allard, Sue Curran, Heather Britnell, Angela Calzetta, Lynn Managhan. Back Row L-R: Darren Jarzese, Mike Bartlett, Jim Gillan, Mike Ganthier, David Allen Marinelli, Chris Lagasse, Marianne Navetta.

Professor Jim Stewart has been the advisor of S.A.M. for the past nine years. Through his support and expertise he has contributed valuable insight in leading S.A.M. and without his support S.A.M. would not be where it is today. Professor Stewart is also recognized as the Vice-President of Programs on the executive board of all nationwide S.A.M. organizations.

Also, Jim Hammerstedt is recognized for serving on the International Board of Directors for S.A.M. organizations around the world. He was also elected for the position of Vice-President of Special Projects.

Executive Board of the Merrimack chapter:

Allison Colesworthy - President
Laurie Pilla - Vice President
Nancy Nadaff - Asst. Vice President
Donna Develis - Treasurer
Jim Hammerstedt - Asst. Treasurer
Stella Papafagos - Secretary

Student Government Association

The 1989/1990 academic year was very busy for Merrimack College's Student Government Association. Our eight standing committees have been working hard for student rights. We created a few special committees in the Autumn to help deal with specific problems and activities.

The first semester of the year, SGA had two open forums as opposed to the traditional one open forum. The first was for students only, allowing students to speak freely and allow SGA to organize the problems into formal complaints. The second was open to all: students, faculty and administration. Both forums were very successful.

The second annual Christmas in the Quad, November 29,1989, was also a great success. We offered food, drink and entertainment. Some of the events included: Christmas caroling, hay rides, movies, free pictures with Rudolph and the lighting of the quad. This year families from the surrounding towns, faculty, administration and (of course) students helped make the Christmas in the Quad quite a special event. In addition to the fun, SGA was able to collect gifts from student organizations on campus. These gifts were donated to some of the less fortunate children in the area.

Our future appears to be brighter than ever, as Student Government prepares itself for the 1990's. Each year we are able to take on more tasks and help improve student life. Our involvement and commitment with and for the students grows greater each year. We will all miss the Class of 1990 and would like to wish you all the best of luck.

-Rob Wilson

Happy Holidays

First Row L-R: Leslie Hill, Eileen MiQuelen, Michelle St.Amond, Chuck Moron, Mike Peterson. Ski Club

The Ski Club is among the argest organizations on ampus with current embership exceeding 100 tudents. We strive to offer the est skiing possible at the lowest rices. Through the experience nd numerous contacts of the xecutive board we are able to btain the best prices possible t the most popular and hallenging ski resorts.

This year we were able to un several very successful ski ips. Over Christmas break, a eek long trip to Killington was njoyed by nearly thirty tudents. In March an ternational experience was njoyed by fifty students for a eekend in Quebec City at the t. St. Anne resort. Successful ay trips were also run to annon Mountain and Sunday ver in February and April espectively.

Often times during the ar the club sells promotional othing to members of the club nd to all Merrimack students. is year skiing t-shirts were ld and in the past we have old Shell jackets and hampion ski sweatshirts. The i Club will definitely be skiing to the nineties!

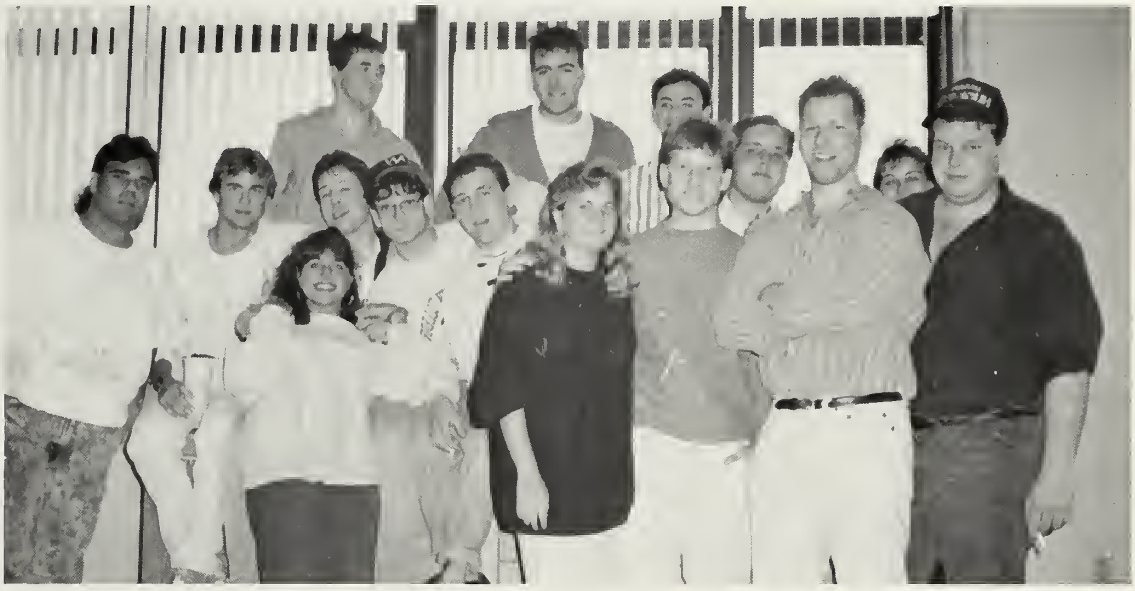
Inter Fraternity/Sorority Council

The Inter Fraternity/orority Council is the governing ody of Greek Organizations at errimack College. Each Greek apter elects two brothers or sters to serve as IFSC presentatives. These IFSC reps ork together to foster ommunication and ooperation within the Greek stem, as well as representing eir individual chapters.

The IFSC is responsible for rious programs and activities hich involve the Greek apters. IFSC sponsors ducational workshops on pics such as hazing, ndraising, budgeting, and gal liability, while also serving a resource on any other issue rtaining to Greek life. In ddition, IFSC organizes creational competitions for the reek chapter to participate in, ch as the Fall Greek Games, nd IFSC plans social events for Greeks, such as Greek week, hich is held each spring.

One of the main goals of e IFSC is to strengthen the onds of friendship and ooperation between the fferent Greek chapters so the tire Greek system is active, hesive, positive, and strong.



Executive Board: Edward Satkawski (President), Allisan Galczewski (Vice President), Ryan Clark (Secretary), Walter Maganzini (Treasurer). IFSC: Chuck "Baager" Cullen, Chuck Trombly, Chris McLaughlin, Bab MacKliesh, Mike "The Undertaker' Levesque, Jim Leman, Beth Gulley, Karry Arsenault, Lenny Duffy, Bab Tosi, Matt Kraunelis.

Nu Phi Kappa

Nu Phi Kappa - founded in 1962 - is one of Merrimack's oldest, largest and most active student organizations. We are primarily a social organization but we are also very active in our local community. Each semester, Nu Phi Kappa sponsors a blood drive with the local chapter of the American Red Cross; bowls with mentally retarded citizens from The Fidelity House each Monday afternoon; helps with clean up work for the Lazarus House homeless shelter in Lawrence; and sponsors a needy child named Eric. We also hold organized, open campus parties each semester and we extend a free Spring Break trip for two in our annual raffle.

Members of our fraternity are actively involved or instrumental in various clubs and organizations on campus such as the Ski Club, Student Government, Resident Assistants, College Republicans, College Democrats, OnStagers, M.O.R.E. retreats, Varsity athletic teams, intramurals, etc. Many of the Nu Phi Kappa members hold leadership or high ranking positions among their respective clubs and organizations.

Nu Phi Kappa currently has over fifty active members, twenty five hundred alumni and over twenty seven years of history and tradition as Merrimack College's largest Greek organization.

Frant Raw: Joanne Manning, Marilyn Whitaker, Shelley Napier, Lori Apprich.

Sigma Phi Omega

Sigma Phi Omega was recognized as a sorority in the Spring of 1988. Since then we have grown and we are very active in the Merrimack College environment. One of the aspects of our sorority we find to be very important to us is the charitable work we enjoy doing. In the Fall of 1989 we collected and donated money to Oxfam and delivered food to the homeless shelters at Thanksgiving.

One of the more fun events we have sponsored for charity was the "Tuck-ins." This was a great success and was enjoyed by all involved.

We have also been successful in sponsoring open - campus parties. These are always a great way for students to get out and enjoy themselves with their friends.

We are planning to continue many of these traditions through the Spring semester and for many years.

We, the sisters of Sigma Phi Omega, would like to wish all members of the Senior class happiness and success in the future, especially to our graduating sisters.

SPO
CATS

Cauld these wamen be patential SPO CATS? Only time will tell. Fun times were had by all at the Student Activities Fair held in the cafeteria. SPO really shawed its' calars.

Tau Kappa Epsilon

Tau Kappa Epsilon is
he largest international social
raternity, with over 300 chap-
ers and colonies. Famous
Teke alumni include Phil
Simms, Digger Phelps, Ron
Reagan, Conrad Hilton and
many more leaders in busi-
ess, politics, sports and phi-
anthropy. Teke, as one of the
argest fraternities at Merri-
mack, is involved with many
spects of school life. Socially
ctive, the brothers of Teke
ave sponsored many success-
ul events for both the school
ommunity as an whole and for
he brothers themselves. Com-
nunity service is a big part of
fe in the fraternity. We help
ut one night a month at the
azarus House, ring bells for
he Salvation Army, walk in the
erry Fox run for the Cancer
ociety and sponsor a date
ape awareness seminar once
semester for the Merrimack
ommunity. Brothers are busy
other clubs and organiza-
ons on campus. There are
ekes on the football, soccer,
acrosse and cross-country
eams. Tekes are involved in
Campus Ministry, Interorgani-
ational Club, Resident Life,
GA, STOA and on the Execu-
ve Board of the Inter Fraternity
orority Council. TKE offers
nany advantages to the mem-
ers of the Merrimack commu-
ity. Anyone interested in Tau
appa Epsilon should contact
he President of Rush Chairman
rough our mailbox in Student
ctivities or approach one of
e multitude of brothers on
ampus.

Above: Want to find out more about TKE? The student activities fair was the perfect place to find out all there is to know from brothers Jordon, Chirico, Kelley, Drew and Mulqueen.

Resident Life

RA's - help or hinder?

Resident Assistants. Are they really as mean as everyone thinks they are or are they just doing their jobs?

The basic job of an RA is to make sure everything is alright in the campus housing and to be sure school rules are followed. It is an RA's responsibility to be there for all students- not just the ones they are officially responsible for. Because often times they have to enforce rules and write fellow students up, they get a bad rap.

The main thing that most **RA's find enjoyable about their job is the fact that they get to meet lots of people. Megan Sullivan, the RA of Monican first West, says "I like the girls on my floor. I'm glad this is where I was put because I got the opportunity to meet freshman that I otherwise wouldn't have met." Other positive aspects of this tough job are the re**sponsibility you learn and the lesson on time budgeting. Says Chuck Moran of Monican third North, "I've learned everything from crisis management to time budgeting. Everyone should be an RA for a year, to see what it's like."

The major complaint of all the Resident Assistants is the inconsistency of the Resident Life office. The rules fluctuate too much, and lots of people find they aren't sure what to do in a particular situation. Says Craig Winskowicz, RA in Apartment A-3, "It's going to be hard when we change Resident Directors. With new rules, we aren't going to know what they feel is right and wrong. We'll get in trouble for what we know is the right thing to do."

Joe DiVingo, a junior in his second year of being an RA, is in Chelmsford townhouse. He finds no problems with being an RA. Next year will be his third and last year at his favorite job. "There is nobody around who loves it [his job] more than I do," says Joe. Steve Kinsley, from Ash, first South, also likes his job. Says Steve, "You're always in the limelight, which is good and bad. It's good when you're in a good situation, but when I grab a drunk guy and turn him around, it's hard when I realize I just grabbed my best friend." Barbara Kenny agrees. "It's like life in a fishbowl. Everybody knows you."

On campus there are 29 Resident Assistants, and there is one off campus at the East Haverhill Center which houses eight students. The RA's on campus live in the apartments, dorms, and the townhouses. These students work together under Maureen O'Dea and Kelly Sullivan to make Merrimack College the safest and most fun place it can be.

Sports

Cross Country

Warriors Have Best Season Yet!

The Cross Country team enters the 1990's in search of a new coach. Don 'Milo' Singleton has resigned from his position to further his career.

In Don's third year as coach, Merrimack Cross-Country boasted its' best team in the sport's history. The men had seventeen runners of which six were returning athletes and eleven were rookies. The Warriors excelled both individually and as a team. The NE-10 Conference Race was an outstanding finish to the season. Shawn Oles finished first out of one hundred and one runners contributing to the team's fourth place finish. Congratulations Guys! Next year the men will be without the services of Seniors Shawn Oles and Kevin Freeman. The team's size and strength will make them a top contender in the NE-10 again next season.

For the first time ever, the women had a full team for every race - a feat accomplished only once last season. Returning athletes Sue Lacerte, Laurie Pilla and Marion Rafferty were joined by rookies Jane O'Neil, Debbie Dastych, Winnie Corsaro, Amy Armstrong and Shelley Bonert. The goals of improvement and fielding a team for each race were easily met as everyone's times were consistently faster. Looking ahead, Senior captains Sue Lacerte and Laurie Pilla will surely be missed. With the other veterans returning next year as juniors the team should boast more depth.

At the annual Fall Sports Banquet, George Clement, Tom Urban and Jane O'Neil were honored as Most Improved Runners. Most Valuable Runner honors were awarded to Shawn Oles and Debbie Dastych.

Best of Luck Milo. Thanks for everything-we'll all miss you!!

Football's Final Farewell

FOOTBALL

The season began on a positive note, with an impressive win against a fierce rival, Stonehill College. It was the first time the Warriors defeatedthe Chieftans at their home field. The Warrior football team then played against two Junior varsity opponents of higher divisions, A.I.C. and Brown University. Both games were lost by no more than one touchdown. The Warriors then faced the Assumption College Greyhounds on a cold day with muddy field conditions and came out with a hard earned tie. Next on the Warriors schedule was the Bentley College Falcons. This game exemplified the season for the Warriors. Merrimack was in the game until the final seconds. The only home game was another heartbreaker. The Warriors lost to Stonehill on an interception return which was the only score in the game. The Warriors wrapped up the season with another fourth quarter loss, this time to the J.V. team from Dartmouth.

Unfortunately, the team was to suffer another loss when discussions were held about the fate of the program at Merrimack and decisions were made that were beyond their control. The result led to the resignation of Head Coach Carven and the termination of the program altogether. The reasons as stated by the college administration were that the initial fee to upgrade the program to Division III status was too expensive because of the insurance rates and the entrance fee. The players noted that private colleges of comparable size like Stonehill and Bentley made the transition to Division III without significant problems.

The 1989 football team would like to thank captains Mike Moriarty and Paul Burns and the Seniors for the hard work and dedication they have put into the program. They would also like to thank Coach Carven, Coach Leary, Coach Hanson, Coach Keough and Jerry for the time and effort expended to keep the program alive. This being the last season, the team would like to express their thanks and gratification to all other players and alumni who participated and contributed to the team.

Merrimack's Golfers

The men's golf team had an up and down season this year. Their biggest triumph was finishing second in the Northeast 10 Conference. Two golfers were named to the All Conference team. They are J.P. Guerin and Mark Peterson. The team's only Senior, Russ Langill, will be missed next season. Also contributing to the team's success was Chris Crowley, Chris Riley and Craig McKenzie.

Next year's team looks promising for coach Jack Stephenson, who did an excellent job in his first year at the helm. The team will remember road trips like the one to Bowdoin. Other memories are Bugar, Blockhead, the Nose, Eddy Munster, Smiley and Jack's farm facts. Off the course, the golfers were in a league of their own

Mens Soccer

When the Merrimack men's soccer team opened the season by forcing a 1-1 tie against Division I Boston College, more than a few eyebrows were raised. Not Tony Martone's.

"I was fairly confident in the preseason we were going to win some games even though we had a lot of new faces and a very tough schedule early on," said Merrimack's eighth-year head coach.

Martone knew coming into the season he had a lot of work to do. Thirteen lettermen were lost from the previous fall, and over half of the players on the opening-day roster (14 of 25) were freshmen or sophomores. biggest losses came on defense, wh graduation departures included four-y starting goalkeeper Tom Bennett, and ented backs Tony Puccio and Fred Forr

But it quickly became apparent Merrimack's defense, with junior M Killmon in goal, was capable of holdin own. The offense certainly could not get worse than 1988's version that scored 20 goals in 18 games.

It was also obvious, however, jelling time was needed for this young that went winless (0-3-2) in its first games. The turnaround came in a h game with American International Col near the end of September.

A Sal Magazzu goal 12 minutes the second half, combined with M Killmon's first shutout, produced a triumph over the Yellow Jackets. That instilled much needed confidence into M

tone's youth corps, and established a pattern that would continue through the rest of the season; the Warriors recorded three more one-goal wins.

The win over AIC sparked a 7-1 run, in fact that included shutouts against Northeastern (2-0) and St. Anselm (2-0). After losing its first two Northeast-10 games, Merrimack went undefeated (6-0-1) in its next seven league matchups to capture third place and a berth in the playoffs for the second time in the program's history.

Merrimack earned a trip to the semifinals by cementing their first ever playoff win in the opening round against St. Michael's, 2-1 in overtime. Freshman Rich Augeri's goal in the first two minutes of the game was Merrimack's only score in regulation. Mike Walsh, Eric Lusignan and Pat McHugh each tallied in a pressure packed, penalty-kick shootout, and Killmon allowed just two of five St. Mike's penalty kicks to get past him, preserving the victory.

The season ended in a 4-0 semifinal playoff loss at St. Anselm, a game in which the final score was not an accurate barometer of how well the Warriors played.

"We outshot them (St. Anselm) nearly two to one," said Martone in frustration. "but we just couldn't capitalize on our chances. I'd like to have that game back, but you can't let one game spoil everything you accomplished during the year."

"All in all we played well," Martone said of his team that finished 10-6-3 overall, just one win shy of tying 1987's school record for wins in a season. "A lot of our younger players came through, and our veterans had solid years. Mike Killmon gave us steady performances in goal all the way through, and one of our keys was a more balanced attack. We stayed away from serious injuries for the most part."

The future looks bright for Merrimack's soccer team, as only four seniors will be lost from this year's squad.

-Paul McCarthy

(Across page L.) The future of Merrimack soccer remains promising thanks to players such as George Boukouvolos shown here looking to go upfield. ***(Left)*** *Mike Walsh boots the ball upfield.*

(Right) Junior Mike Killman proves his outstanding goaltending skills once again in a brilliant save. Killman was a tremendous asset this season, while Merrimack attained its best record in ten years.

Women's Soccer

Team Captures Fourth Consecutive Conference Title

*(**Below**) Seniors Sue LaPlante (All American) and Kothy Mahoney, are two veterans of the four year NE-10 Women's Soccer Dynasty! (**Far Below**) A familiar sight: Coralyn Sarantakis,ß the leagues leading scorer and Rookie of the Year, lines up another goal.*

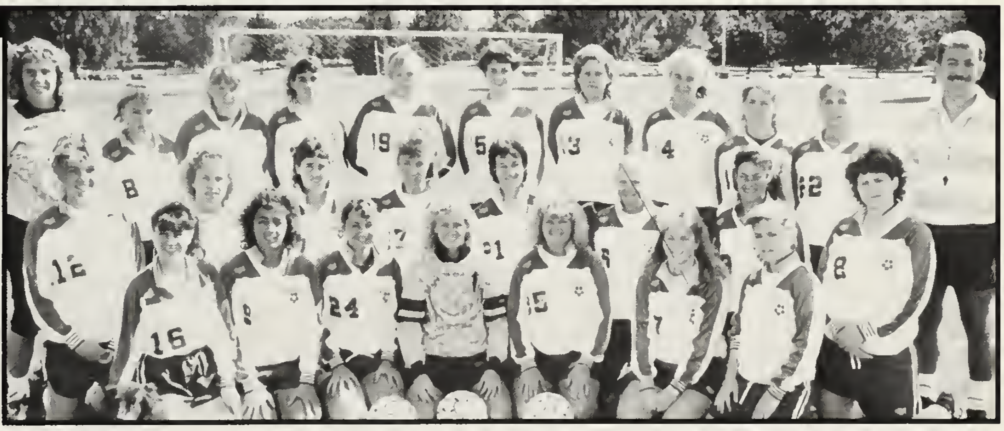
Led by two-time All-American goalkeeper Sue Plante, plus a high-powered offense that featured "rookie of the year" Carolyn Sarantakis, Merrimack won its fourth consecutive Northeast-10 Conference crown with an 11-5-5 overall record.

The Lady Warriors were undefeated in the Northeast-10 (6-0-3) for the third time in four years as they shared the title with Springfield. The two rivals played to a 1-1 double-overtime tie in the championship game marking the second time in three seasons they shared the title.

Plante, a Senior co-captain from Auburn, Ma., capped off a brilliant career by starting in every game and posting a 11-5-5 record, a 0.74 goals against average and nine shutouts. She led the Conference in goal against average for the fourth straight season. Named All-American for the second year in a row, Plante's career record is a phenomenal 55-19-9 with 36 shutouts and a 0.69 GAA.

And Plante wasn't the only outstanding player on this years squad. The senior keeper was joined by senior forward Beth Licopoli, junior back Bethann O'Leary, senior midfielders Cathy Walsh and Kate Murphy, and freshman forward Carolyn Sarantakis as All-Northeast-10 and All-New England selections. Freshman forward Sarah Boyd was also a Conference all-star. Licopoli, a two-time Academic All-America from Sutton, Ma., finished her career with 38 goals (15 game winners!), tying a school record shared by Michelle Muise ('88). Licopoli passed the torch to freshman sensation Carolyn Sarantakis, who led the Northeast-10 Conference as a rookie, netting 12 goals and dishing off 11 assists for 35 points.

The Lady Warriors also qualified for the ECAC Tournament for the fifth straight year, only to lose to eventual champion New Hampshire College, 1-0, in the semifinals.



*The **Women's Soccer Team** (L.-R.) **1st Row**-Cathy Walsh, Beth Fradette, Beth Licopoli, Sue LoPlonte, Kate Murphy, Bethann O'Leary, Allisan Taylor. **2nd Row**-Soroh Boyd, Michelle Curron, Elano Delusky, Caral Marquardt, Kathy Mahaney, Pam McBrien, Julie Dadmun, Sue Curran. **3rd Row**-Janice Vendetti, Michelle humphreys, Jane Schmiedel, Michele McDanald, Maureen Dadd, Danielle Fay, Karen Wisniowski, Jen Horringtan, Pom Sorontakis, Caralyn Sorantokis, Coach Gabe Mejail. Women's Basketball

A Tough, but Promising Future

Not because of lack of effort did the 1989 Lady Warriors basketball squad have a tough season. These girls worked their hardest to produce a winning team. Their final Northeast-10 record was 3-15. Overall, however, they were 6-20. Their record does not show the encouragement of Coach Debbie Cogan or the determination of the players. No matter what, they were always willing to step back onto the court.

Senior Diane Coughlin showed an outstanding final season. She helped the team both on and off the court by playing a total of 717 minutes during the season and averaging 9 points a game. The only other senior, Melissa McGinn, also showed her true colors this season. She averaged 6.8 points a game and played 483 minutes. These two co-captains, along with third captain Susan Stewart, led the team in their final victory over Assumption.

The team is a very young one, consisting of six freshmen. Rookie of the Year Clare McInerny, Chrissy Andreson and Rachel Reynolds all came together to produce a strong upcoming starting team. Together the girls will prove their real talent and will get 'em next year.

HOCKEY

Warriors Face Biggest Challenge in Years As They Enter Hockey East.

The Merrimack Hockey team faced an unknown destiny as they entered Hockey East this year. The Warriors finished their inaugural season with an overall record of 10-24-1 and a 3-18 league record. "It was pretty much what we expected. We expected to struggle this year because of a rebuilding cycle. It tries your patience and character to go through a season like this, but we certainly enjoy the challenge," said coach Ron Anderson.

Merrimack ended its regular season on a high note with a 10-9 overtime win against ULowell. The Warriors were then off to face B.C. in first round playoff action. B.C. won game one by a 3-1 margin, but Merrimack came back with a vengeance to take game two by a score of 6-3. It was Merrimack's first win over Boston College in eight games. The win was sparked by Senior co-captain Andy Heinze. He had Hockey East's fastest hat trick in history (5:10 minute span). Yannick Gosselin also contributed to the Warrior's momentum. He had twenty three saves in game one and forty five saves in game two. Alas, Merrimack's surge in game two was not enough to win the series. B.C. beat the Warriors 8-5 in game three.

The 1989-1990 season was only the beginning for the Merrimack Hockey team. They ended the season confident of them-
selves and what they could accompl
Coach Anderson summarizes the tea
perseverance best, "We've been baptize

LACROSSE

A Strong Season Promises a Bold Future for Merrimack Lacrosse.

The Merrimack men's Lacrosse team had one of their best seasons, finishing with a 9-4 record this spring. The Warriors won their first five games over New Hampshire College, UMass, Assumption and Bates. The Lax team then took to the road losing to Plymouth State and New England College. Our Warriors came home to slap M.I.T. and Roger Williams but suffered a heartbreaking loss to Division I Holy Cross. This loss kept Merrimack from the playoffs. Undaunted, the Warriors showed their character with three wins on the road against Western New England College, New Haven College and St. Michael's. Merrimack ended their season with a loss to Colby.

Anchored by Ken Sarni, Pete D'Erano, John Cassedy and goalie Bill Bredir the team's defense was their strongest poin The team goals against average was clos to the top in Division III all year.

The future of Merrimack Lacross looks promising. Next year's captains ar Doug Fernandez, Len Galvin and Pete Davis They will be joined by Rookie of the Year E DeBryan, MVP Kevin Kisel and Most Improved player Scott Ettenhoffer. Unsun Hero Greg Kleva and "Big D" award winne Ken Sarni will be missed next season. Despite some tough breaks, the 1990 Lacross team has successfully led the program in th right direction for the years to come.

Lady Warriors Rally to Post a Second Place NE-10 Finish!

Despite having seven freshmen on the roster and ten upperclassmen with limited playing time, the 1990 Lady Warrior softball team fared quite well. Even though they returned from Florida with a record of 2-10, coach Bob DeGregorio rallied his squad to post a 27-22-1 record overall. Their Northeast-10 conference record of 16 wins and 2 losses was good enough for a second place regular season finish.

Senior captains Jill Bendikian, Susan Fitzgerald and Lisa Bambikidou were mainstays for the Lady Warriors all year. As the season progressed, some of the younger players exhibited their talents as well. Fresh men Karen Wisniowski, Michelle Page Mary Gallagher and Terri Bambikidou cor tributed to the Lady Warrior's succes Leading the way for the team was sopho more Sue Foulds who pitched in 26 of th games, 173 innings, had 7 shutouts and 0.728 ERA.

The future of the Lady Warrior softba team appears to be bright if they continue t improve and bring in a crop of young play ers as strong as the class of 1993.

-Megan Loudermi

(Bottom L.) Sue Fitzgerald prepares to make a sacrifice bunt to advance runners to second and third.

*(**L.**) Coach DeGregorio gives his team some pointers during practice. (**Center**) Sue Foulds releases a fastball for another strike. (**Bottom**) Nancy O'Neill connects for a solid line drive.*

INTRAMURALS

Intramural sports give Merrimack students an opportunity to participate in organized sports activities. A few of these sports, such as Football, Street Hockey and Coed Softball are pictured here. Peter Paladino, Director of Intramurals, tries to offer a broad range of programs that interest a wide range of students. The quality of intramurals reflects the number of students who participate. Join a team or gather your friends together and start a new one!

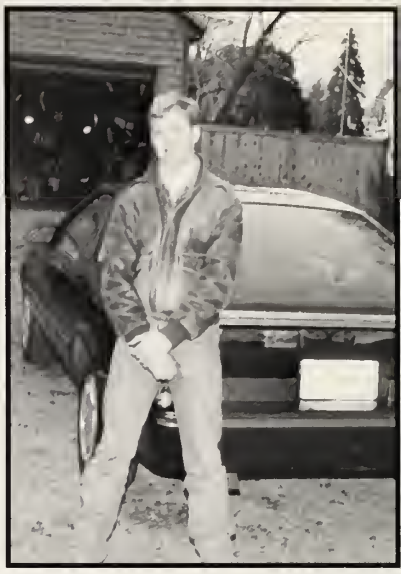
Insights

Well, it's finally over! That's right Mom, I can come home now. It has been an amazing year. All across the world great historical changes have occured. Our generation has witnessed the unification of Germany, democratic movements all around the globe, and Glastnost in the Soviet Union. Is it no wonder that equally amazing changes have, and continue to occur right here at Merrimack College? I will not reiterate what is already covered in "The Bold New Look into the Nineties", but I want to stress that changes can occur with the right leadership and attitude. This means that you, the students of Merrimack must get involved with campus activities. Do not complain about something you disagree with, only to sit back and let it grow. Think of the best way to solve the problem and get involved. This weekend in church, my pastor was going over fables and parables in his eulogy. One of these fables illustrates my point. In one of Aesop's fables, the Sun and the Wind were in disagreement over which one was more powerful. Down on earth a man in an overcoat was walking down a path. The Sun and the Wind bet each other that the first one to get the man's coat off would be declared the winner. The wind was elected to go first. She blew as hard as she could, but with every gust the man held onto his coat even tighter. Finally the exhausted wind gave up. The sun thought over the situation, aimed a consentrated light beam toward the man, and turned up the heat. Within seconds, the man had taken off his overcoat. The moral of this story is that there always is a better way to win, and that violence is not the best method.

For those of you who actually endured reading that paragraph, and still have nothing better to do, here are some time consuming thank yous. To everyone who had their name spelled wrong or missed, I offer my sincere apology. Next time a yearbook photographer takes your picture write your name on their forehead. To Security, especially Lt. Charlie McCarthy and George Bodenrader for all the times you had to unlock Student Activities for us.



To Carol, Margaret and Bruce for all your assistance and the use of your laser printer, without which this book would not be possible. To Kelly Sullivan for your help and guidance, especially over break. To all yearboo
staffers, especially Heather and Marion, you'v
worked hard and made many sacrifices to get th
finished - THANKS! To my partner, my fellow Editor, m
roommate, my friend Bob, we did it! Next year's goin
to be different, right? To my parents who endure
several weeks of me running off to yearbook befor
cleaning up the mess I brought back home. (I'll do
tonight Mom, I promise) To my summer job boss, wh
probably is still wondering where I am. And last, bu
certainly not least, to my caring girlfriend Shelle
thank you for bearing with me and my time consumin
jobs - I love you. Be excellent to one another...

- Michael G. Ehrmanntra
Editor

Words of WISDOM

(R.) This is how it began... (Lower L.) This is how it ended.

I hope that you have enjoyed the 1990 Yearbook. The planning for this book began in March 1989 and was completed July 16, 1990. When I first started proposing the idea that there could be A Bold New Look for the Merrimackan a lot of people thought that would be excellent, but I do not believe they thought they would ever see proof of such assertions. Surprise, everything was true!!!

Upon writing the final words to this extraordinary effort I am obligated to reveal the insights that have emerged over the course of my struggle as an Editor-in-Chief. One thing which you will probably gather is it is seldom an easy task since yearbooks are about people. In this case the people were not familiar with the aspirations of the Bold New Look proposal which the book desperately deserved and needed to survive. A few examples of this is the introduction of Copy throughout the book. Many people were satisfied with the picture book mentality which was troublesome for me to accept because captions and stories would be the one thing that would make memories come alive down the road. Yearbooks do have an initial appeal, but chances are it will get tossed around with all the rest of your belongings until you come across it in a frenzy to capture your youth. At that point you will be happy that somebody had hopefully done a decent job at preserving your past. Well enough of yearbook philosophy!!!

Where is the yearbook going in the Nineties? Well I believe that the yearbook can continue to grow both with capital purchases like a laser printer and possibly a computer with a color monitor. Even as this book goes to the press technology is changing the face of yearbooks. Already there will be a new program named Pagemaker 4.0 that will allow one-hundred percent of the book to be produced computer style. However the one thing that the program will need is dedicated students and a commitment from the college to obtain that talent. This means that Merrimack must make another Bold step into the future and compensate its student leaders in some way, shape, or form. This is standard at other colleges throughout the country. Finally, it will take the Merrimack College Community to rally and support its yearbook whenever it can. This for instance may mean submitting a writeup when requested or telling the photographers when a good time would be to have a picture taken.

The 1990 Yearbook is Done!!!

In closing this chapter of yearbook history I must ask that people remember to give thanks to those people who made this book happen. Yes, there are a few problems with this book and I could pick out every single one but they are insignificant compared to the sum total of our effort. Special thanks must go to Mike Ehrmanntraut, Heather Fleming and Marion Rafferty who completed this book during their Summer Break. I must also thank Michelle Chaput who helped get the darkroom in order or there would be quite a few pictures missing.

Its been great being Editor-in-Chief even with all the headaches. Congratulations to the class of 1990 and best of luck with the rest of your lives.

-Robert L. Simpson III

Colophon

The 1990 Merrimackan was brought to you on 292, 8.5 x 11 inch paper. Black and white pages were produced on Dull Enamel and color on Lustro Color paper. The cover is a combination Plexiglass/ Litho design with lamination over original art work by Linda Hachey. The books Endsheets were also the same art work created for the cover. Cover design and concept was produced by the team of Hachey, Krako and Simpson. Typestyles on the cover and in the book were predominantly Futura with a few twists. Avant Book and Avant bold were used in the opening and Century Book and Century Bold were used in the color Seasonal section. The opening used the process color, black and the Senior Week section, Cyan for Second Color. The Seasonal color section employed a variety of colortone shades. The book used approximately 125 rolls of black and white film from Ilford Hp-5 to Kodak Tri-x usually 400 ISO. 26 rolls of color film was used from Kodak Kodacolor 200-400 and Ektar 25, 125 and 1600. A majority of the photographs were developed and printed by Michelle Chaput, Bob Simpson and Dominique Spina using Sprint processing chemicals along with Ilford Multigrade III RC Rapid MGR, 1M and RC Deluxe MGX 44M printing paper. The actual picture taking was done by yearbook staff members with the only exception being sports photography which was started by Loring Studios and completed by Purdy-Vantine Studio. The 1990 yearbook will be published at 1,850 copies at $22.00 a book generated from student sales. Advertising accounted for $3,300 dollars. The yearbook was printed by Hunter/Jostens Publishing company with special thanks to Guy Garon for representing our school.

No part of this publication can be reproduced in whole or in part without the express written consent of the Merrimackan staff and its Editors, Merrimack College 1990 ©.
